Walton's Emergency Release Drill

April 26, 2016

Walton Elementary will be part of the School District #43 Emergency Release Drill on

Wednesday, May 4th at 2pm.

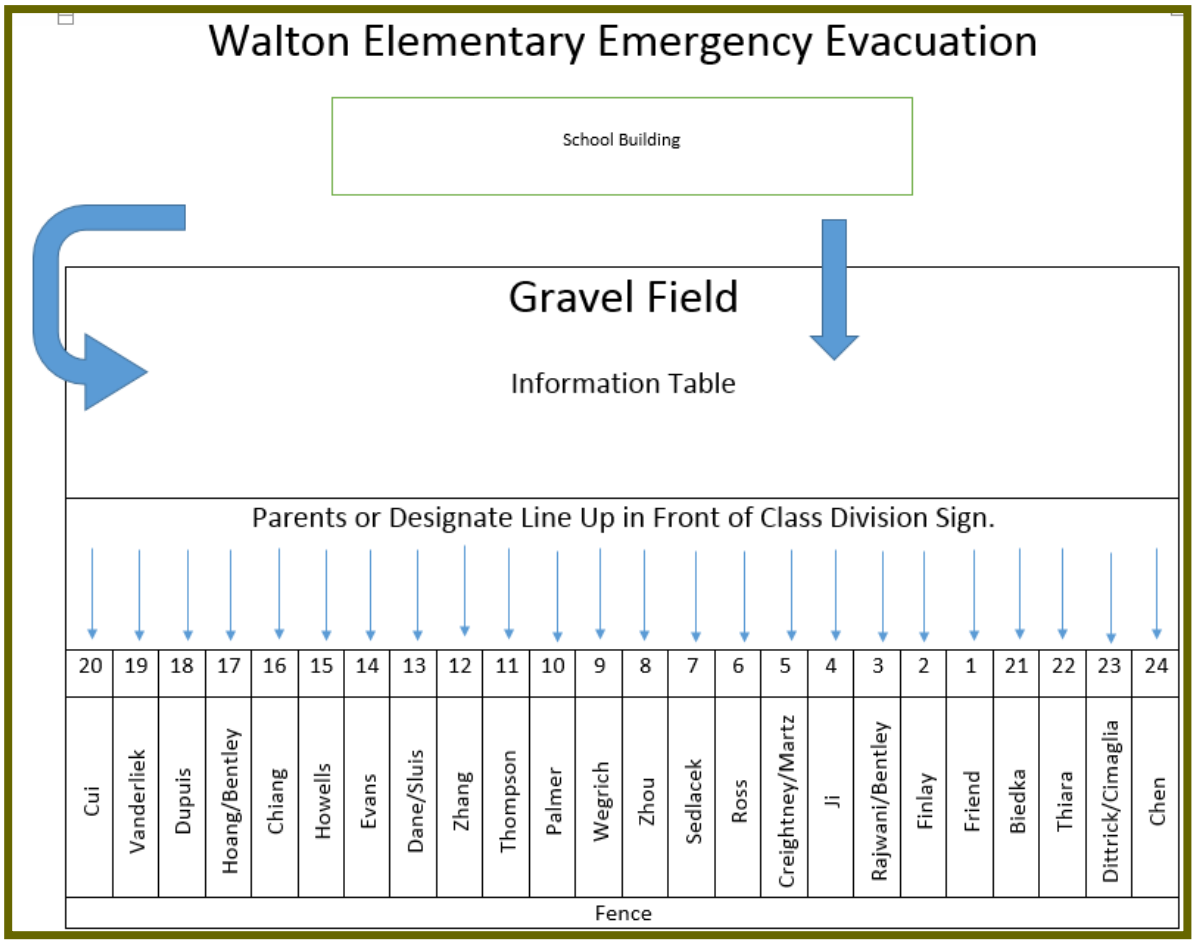
We will simulate a real emergency to test our school community's response to a large scale disaster. We are asking parents to make every reasonable effort to participate in this drill.

The drill will end at 2:45pm. Any child remaining will dismiss from the field

Please ensure that your emergency contacts are updated at the school.

We cannot release your child to anyone NOT listed as a contact.

Parents will need to make sure either they or their emergency contacts are available to pick up their child. In order to ensure a safe and orderly environment, we are asking parents to follow these procedures:

Procedure:


- Students will duck/cover and then evacuate to the field. (See map.)
- Announcement made through Twitter.
- Parents/Contacts will proceed directly to the gravel field. They will line up in front of their child's division in order to retrieve him/her.
- If a parent has more than one child, he/she will have to get in line again.
- Once the child is retrieved, parent/contact/child should vacate immediately.
- If the teacher does not have your contact info, the contact is to report to the Information Table for assistance.
