**February 17, 2015** - School District No.43 (Coquitlam) and the City of Port Moody are pleased to announce that the Master Field Use Agreement between City Council and School Board Trustees has been approved for a term of five years by both parties.

Over the last few months, School District Staff and the City of Port Moody Staff have been working collaboratively to update this agreement to reflect current practices and desired changes that are mutually beneficial. The City and School District will continue to work towards resource sharing, community involvement and consultation, joint planning and integration, and optimum use of some of the shared properties within the City of Port Moody.

As stated in the agreement, it is the wish of the City and School District to avoid duplication of facilities, land, equipment and programs, and to maximize the use of available facilities to provide optimum benefits for the entire community.

The City will have weekend and evening access to some school district fields while the School District will have daytime access to city fields as specified in the agreement.
