Listed below are various hazards School District No. 43 (Coquitlam) has identified as part of the project in which the work will be done. The list may not be all-inclusive. The Contractor must evaluate and consider the work scope and the condition of the project to determine if other hazards exist. If the Contractor identifies additional hazards, the Contractor must ensure all employers on the workplace are aware of the workplace hazards.

- There are only general occupational hazards associated with this work location.
- The following list of hazards have been identified.
