Message from the Board of Education

Welcome to the stakeholder consultation and engagement process for the 2018-2019 budget for School District No. 43 (Coquitlam).

We are the third largest school district in the Province of British Columbia, and as such we have a diverse population which includes young families, new Canadians, professionals and others who are choosing to locate here for the quality of life that includes a thriving public education system. Our student achievement levels continue to be exceptional and are among the top in Metro Vancouver and the Province.

The Board of Education has again planned a consultative budget process for the 2018-2019 school year. The process will provide multiple opportunities for stakeholder input, starting in April 2018, once Ministry funding has been announced. We appreciate all comments and input while we work closely with our partner groups within the confines of our contracts and available resources.

The Board is committed to transparency and certainty and has developed a stable and sustainable proposed budget for 2018-19. Taxpayer Accountability Principles are an important aspect of practice adopted by the Board and staff in the preparation of the annual budget. The proposed budget will provide certainty to ensure long-term stability and sustainability. Through our **Directions 2020** developed goals and objectives we are committed to helping students achieve success, enhancing learning through technology, and fostering a sustainable educational organization - all within a changing landscape of provincial funding.

We invite you to **learn** about the budget process, **engage** in the consultation and **contribute** feedback. Help deepen our collective understanding and identify the challenges and opportunities. Share your ideas on how we can make the best use of the funds available for our children, families, employees and communities while advancing the School District towards our mission. Budget Process 2018-2019

The Board of Education is utilizing a comprehensive strategy to create the 2018-2019 budget.

Our Goal

The Board of Education will embark on the budget process through a transparent, inclusive and accountable process that engages the community for input.

- The first step of the strategy was to identify potential cost pressures as well as areas of possible financial surplus/deficit. For the 2018-2019 year, the Board has identified that it can deliver a stable and sustainable budget.
- The Board is consulting with stakeholders on how it can use available resources to continue to foster a high achieving and sustainable organization for many years to come.
- The preliminary budget process allows stakeholders to comment and provide suggestions on the proposed budget so that the Board can consider these prior to finalizing the budget.

This budget strategy will consider:

Students First

Aligning decisions with a thriving public education system for students is a community value. As stewards of public funds, the School District must demonstrate a financial commitment to improve the learning environment for students.

Fair Access for all Students

Delivering fair, effective and positive learning environments for 31,000 students today and an additional 3,000 new students over the next decade is the School District's commitment. Present financial decisions must consider the current and future needs of students and employees.

Lifelong Learning in our Communities

Delivering lifelong learning in our communities is part of the School District's vision. We envision high quality, diverse, personalized and enriched education opportunities for all students of all ages. Ongoing financial review and community engagement will support this.

Changing Landscape of Provincial Funding

Funding from the provincial government has not kept up with rising costs even with lower enrolments and increased per pupil funding. Additional cost pressures such as hydroelectricity, gas and health benefits have all increased, with school boards funding most of these.

Long Term Strategic Vision

Aligning the budget process and connecting the allocation of resources with our strategic vision and goals as outlined in *Directions 2020*, which was established by the Board of Education in the Fall of 2016.

Directions 2020 Summary

At School District No. 43 (Coquitlam), it is our firm belief that the operation of the District is more effective with a clear vision and purpose that is aligned and integrated through all areas of the organization.

The goal of creating a unified vision led us to develop *Directions 2020*, the fulfilment of the *Learning Without Boundaries* strategic framework that was created by our School District through consultation with and feedback from several thousand stakeholders.

This vision, known as *Directions 2020*, will direct and enable the:

- fulfillment of our mission and goals and provide direction for future plans;
- prioritization and articulation of annual priorities and allocation of resources; and
- effective communication of results to allow for reflection, feedback and ongoing enhancement.

Our Mission

To ensure quality learning opportunities for all students of all ages.

Strategic Goals

The fulfilment of the *Learning Without Boundaries* strategic framework has resulted in these three strategic high-level goals and several objectives.

Goal #1

Achieve Student Success: *Our core work and common goal is educational excellence.*

Goal #2

Enhance Learning Through Technology: *Cultivate the use of technology to improve learning and working experiences for all.*

Goal #3

Foster a Sustainable Educational Organization: *Ensure that our human, financial and physical resources are sustainable.*

Aligning Budget Planning and Resource Allocation with *Directions 2020*

The School District is committed to a model of transparent budget planning and resource allocation that is directly aligned with our strategic vision and goals, *Directions 2020*, established by the Board.

It is a consultative model that coordinates budget planning and resource allocation activities with inclusive stakeholder consultation and feedback based on the vision, goals and objectives. The model includes:

- articulating *Directions 2020*;
- providing timely and accurate budget information;
- receiving budget requests and feedback;
- prioritizing budget requests for the upcoming budget year;
- allocating available resources to best meet requests that align with the vision, goals and objectives;
- communicating the outcomes effectively for transparent accountability.

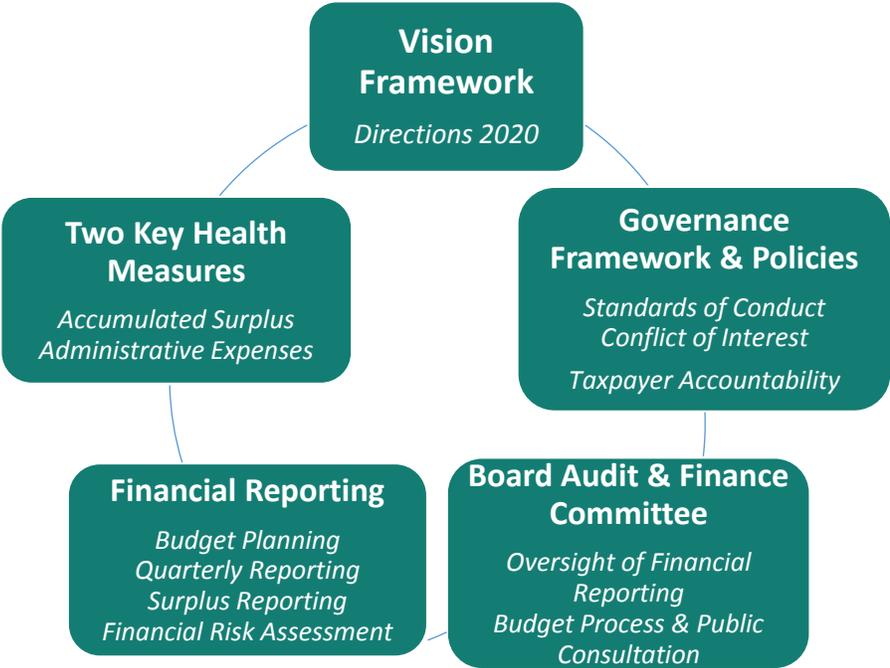

The model will ensure that budget requests and resource allocations are connected to and aligned with the *Directions 2020* vision, goals and objectives. This model is an integral part of the School District's operating culture.

Financial Governance and Accountability

The Board has fully adopted and incorporated all of the recommended Ministry of Education requirements pertaining to financial governance and accountability. This includes practices that the Office of the Auditor General would deem as best practices.

- The District has a strategic plan and vision (*Directions 2020*) with clear goals and expectations;
- A robust governance framework including standards of conduct and conflict of interest reporting requirements;
- Accountability practices including regular financial reporting;
- An established Finance and Audit Committee;
- Direct engagement with external auditors; and
- A balanced budget with policy provisions (accumulated surplus) to address unforeseen and emergent issues

Accumulated Operating Surplus Policy

The Board has established an Accumulated Operating Surplus Policy as part of its multi-year financial approach for stable and sustainable organization health:

To the extent that there is an excess of revenues to expenditures (operating surplus) in any fiscal year that:

- *40% of the operating surplus be directed to one-time opportunities primarily associated with technology, educational initiatives and deferred maintenance of facilities; and*
- *The balance of funds be allocated equally over the subsequent three fiscal years*

The Board reviews this policy annually and provides further details in the audited financial statements as to how restricted surplus funds are planned to be utilized in subsequent years.

Taxpayer Accountability Principles

The Board has incorporated the six **Taxpayer Accountability Principles** which are embedded within *Directions 2020* strategic goals. These are designed to strengthen accountability, promote cost control and ensure that the public sector operates in the best interest of taxpayers.

1. **Cost Consciousness (Efficiency)** – Strengthen cost management capabilities by providing educational services as efficiently and effectively as possible.
2. **Accountability** – Transparently manage responsibilities and enhance organizational efficiency and effectiveness in planning, reporting, and decision making.
3. **Appropriate Compensation** – Comply with a standardized approach to performance management and employee compensation
4. **Service** – Maintain clear focus on positive outcomes for student success.
5. **Respect** – Engage in equitable, compassionate, respectful, and effective communications.
6. **Integrity** – Make decisions and take actions that are transparent, ethical and free from conflict of interest.

The Difference between Capital Budgets, Operating Budgets and Special Purpose Funds

As one of the major employers in the Lower Mainland, the Board has a large and complex budget.

There are three separate sections of the budget. The following illustration shows what is funded from each section.

Operating Budget	Capital Budget	Special Purpose Funds
 <ul style="list-style-type: none">• Learning• Teaching• Programs• Administration	 <ul style="list-style-type: none">• Buildings• Fields• Infrastructure	 <ul style="list-style-type: none">• Specific time frame (12 months, 24 months)• Specific function• Examples:<ul style="list-style-type: none">○ Learning Improvement Fund○ Annual Facilities Grant○ Community Link

The budget process focuses on areas where the Board is able to make changes – within the operational budget.

Any funds within the capital budget may not be used for operational budget items.

Special purpose funds are for designated purposes which can supplement operational activities. That said, similar to capital funds, they may not be used for operational budget items.

Budget Goals

The District has as its budget objective the aim of providing long-term stability and sustainability through multi-year financial planning.

Carefully planned and responsible multi-year changes in measured amounts allow for long-term budget stability and sustainability.

- Allows for long-term sustainable planned budget additions
- Smooths large fluctuations in budget changes
- Helps manage unforeseen funding risks

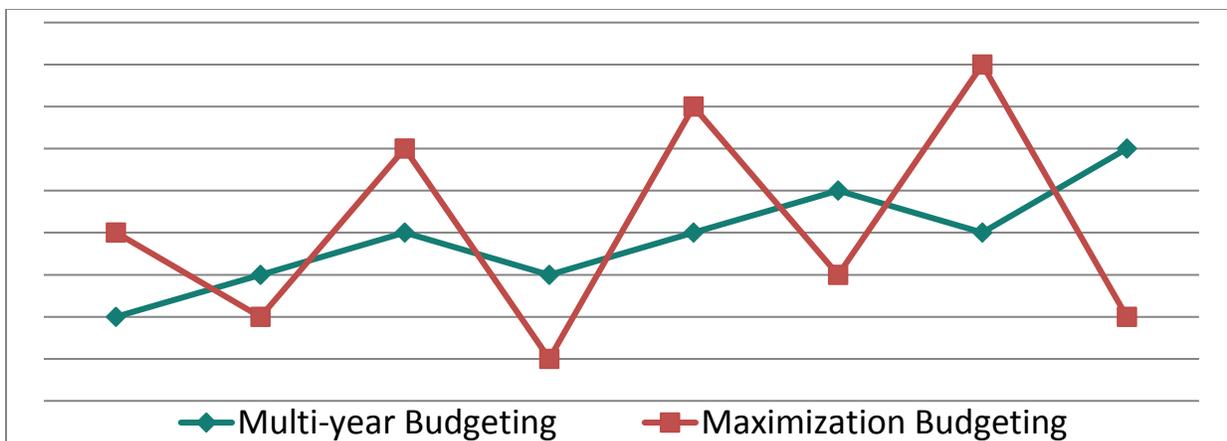

More funding for schools to support and enhance teaching and learning.

School District budgeting is extremely complex due to the lack of multi-year funding certainty, limited Ministry funding for inflation and the frequent adoption of new and unfunded initiatives.

Multi-year financial planning is a strategic budget management method of making carefully planned and responsible changes in measured amounts over several years to smooth out large fluctuations in year-to-year resource additions or reductions due to unforeseen costs and other circumstances.

Multi-year financial planning as a budgeting framework will build the School District' long-term stable financial position, help manage future risks from unforeseen situations, and most importantly allow for the planning of ongoing responsible and sustainable positive changes to the education system.

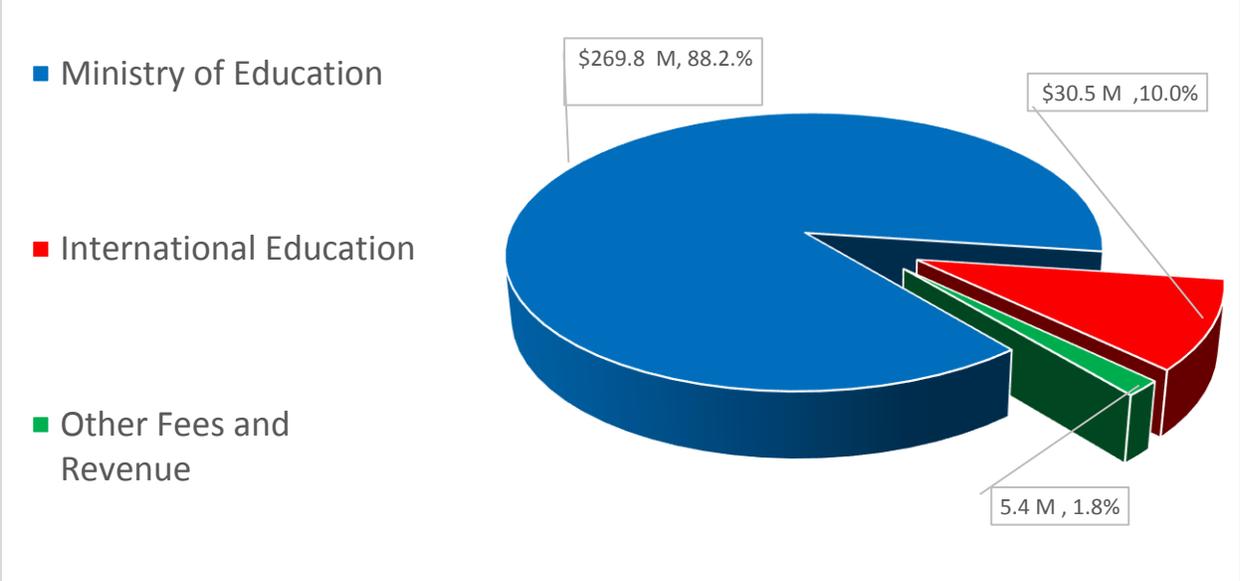

As shown in red in the graph above, maximizing an annual budget surplus each year can lead to a pattern of adding and cutting resources which creates an unstable and uncertain education system for students, parents and employees. As shown in green, a multi-year distribution of annual budget surplus over the medium term helps to smooth funding changes and avoid sudden and frequent program changes.

Make up of a School District Operational Budget

The operating budget in 2017-2018 was \$302.9 million. As the chart below shows, the majority of this funding, 89.7%, comes from the Ministry of Education.

SD43 Sources of Revenue 2017-2018

Funding

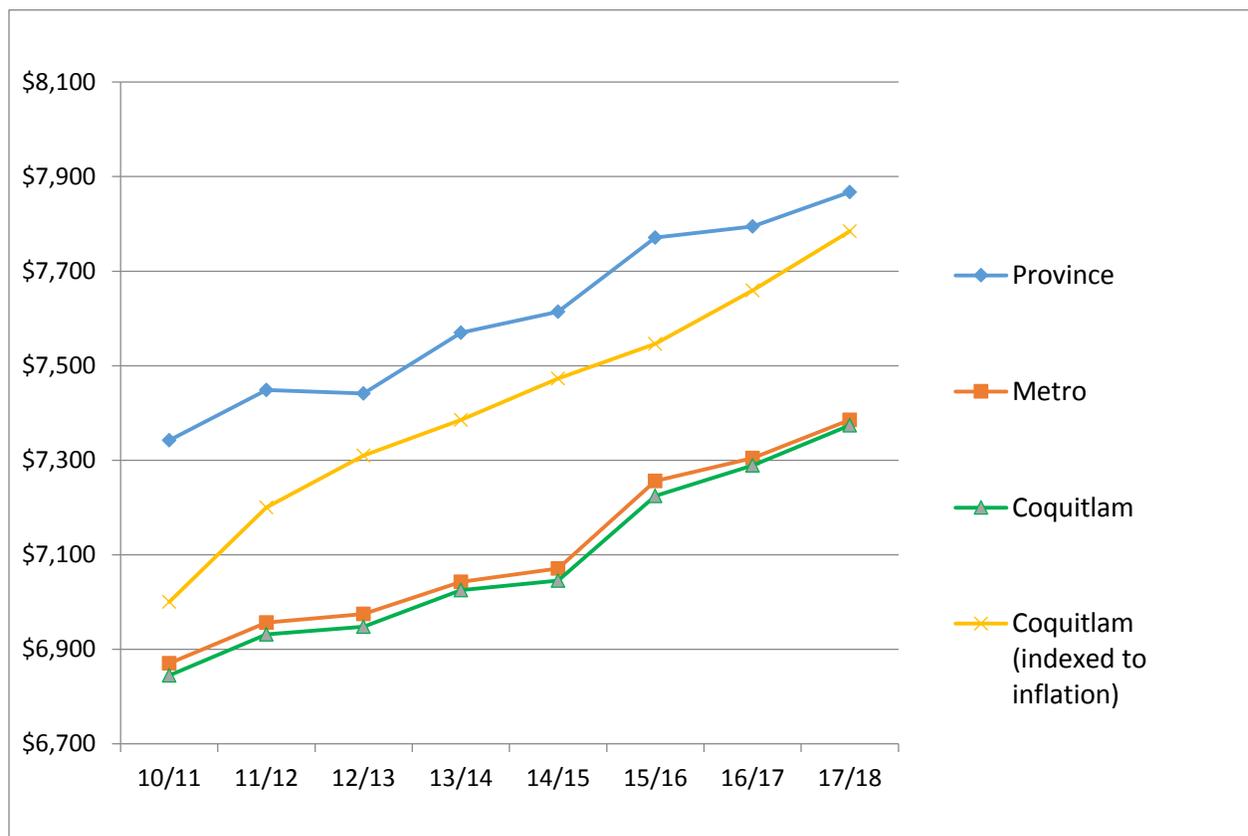

The basic student operating grant allocation for 2017-2018 is \$7,301 per FTE student. SD43, like other school districts, also receives additional fund for unique student and school district factors.

Provincial funding however has not kept up with inflation. Further, there are 16 out of 60 school districts which are reporting declining enrolment and/or qualify for funding protection. These school districts receive an additional \$14.7 million in support. SD43 is funded \$1.0 million less due to funding protection provided to these school districts.

SD43 ranks 57th in funding out of 60 school districts for 2017-18.

In terms of funding for 2017-18, SD43 currently receives \$7,374 per student (excluding special student needs and salary differential factors) while the provincial average is \$7,867 per student. This difference of \$493 per student is significant considering that there are approximately 31,000 students in the District.

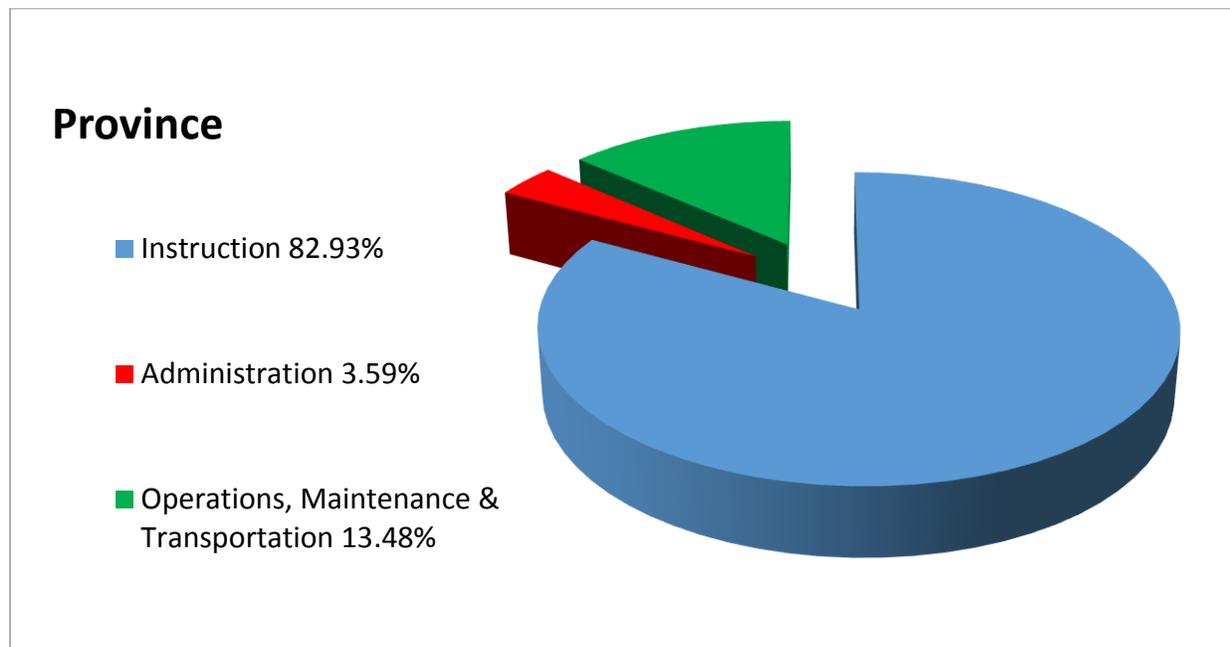

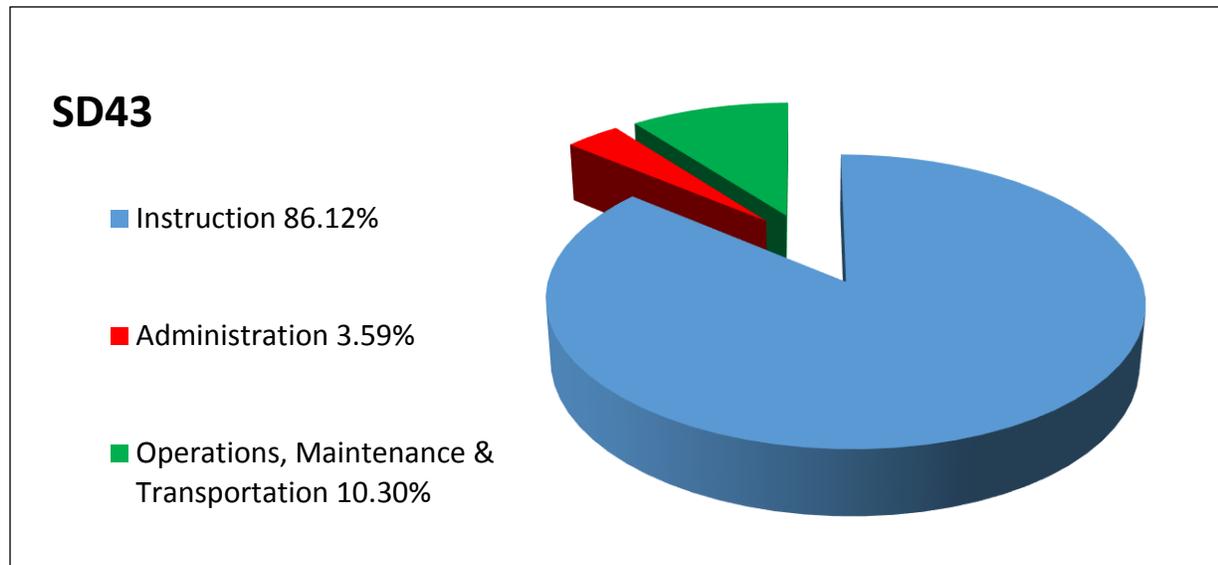

This trend is not new and the chart below shows how funding per student has not kept up with costs in recent years. If total grants had kept up with inflation since 2009-2010, SD43 would have received \$7,785 per student. The difference of \$411 per student (compared to the actual funding of \$7,374) equates to approximately \$12.6 million funding shortfall.

Placing Instruction First

The Board has always placed students at the forefront of decision making when it comes to budgets. The Board has made decisions to maximize the funds available for instruction in the classroom. In fact, the Board spends more of its budget on instruction than the provincial average.

A History of Student Success

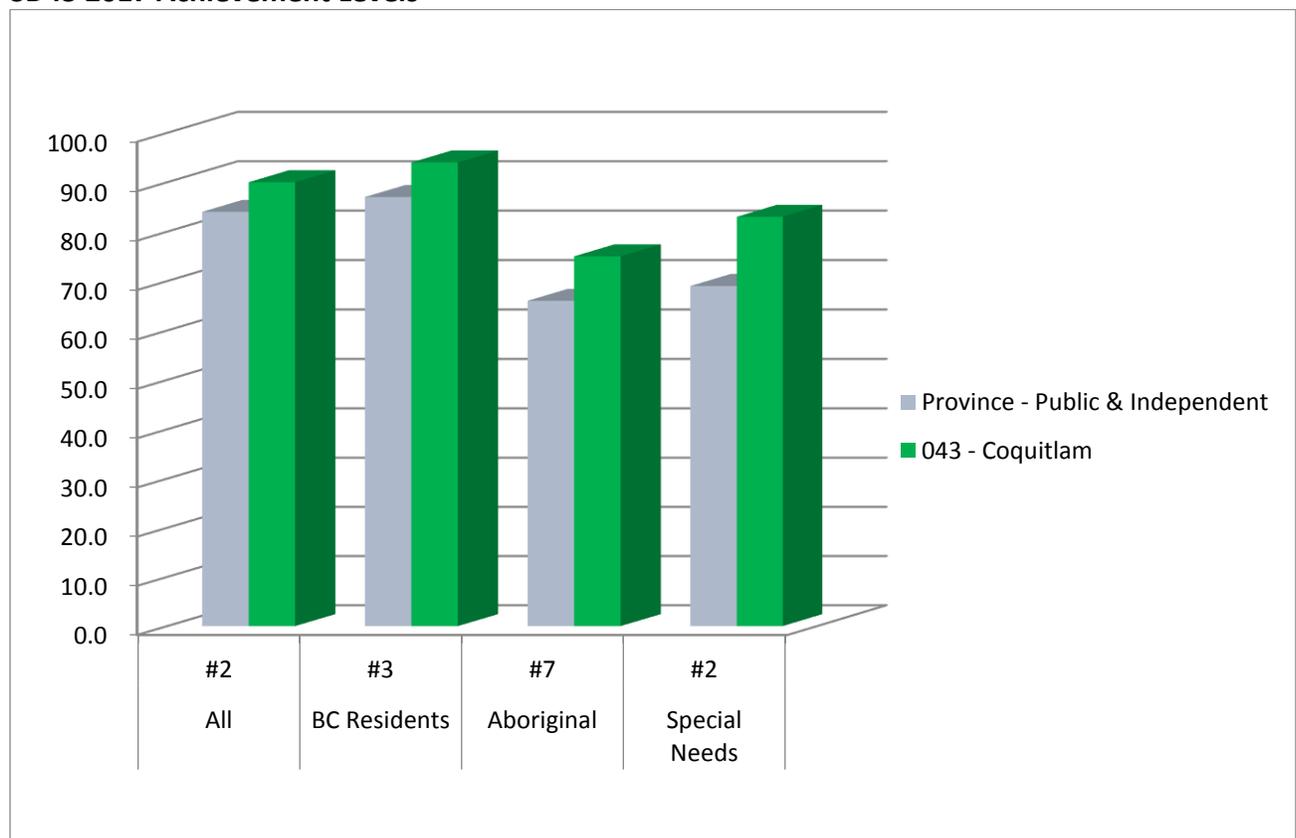

Through the budget process, the Board will seek to maintain a high achieving and sustainable organization for the long-term which is built on our past successes. We will seek new and innovative ways to deliver our services which will ensure that we maximize our budgets and ensure quality learning for all students.

SD43 has a history of student success. The 2017 Achievement Levels released by the Ministry of Education show that our student achievement results exceed provincial norms on every measure.

The Board's goals are, and will continue to be, focused on helping students acquire a series of attributes to help them become Learners, Thinkers, Innovators, Collaborators, and Contributors. Our budget process will provide the answers needed for the difficult task of meeting our financial pressures while ensuring the continued success of our students.

The graph below reflects our student performance and ranking in all provincially measured areas against school districts where graduates exceed 500 students.
