The Forces of Nature Club is collecting used Brita filters and wrappers! Your filters will be sent to TerraCycle, where they will be recycled into new plastic products such as playground equipment and outdoor furniture. By donating, you will help protect our environment and you'll help the Forces of Nature club with their future initiatives. Now would be a great time to change your filter! You can drop off your Brita water filters at the school office.

Terry Fox Secondary Leadership classes have designed new black (with pink text) or pink (with black text) anti-bullying shirts, "KIND IS THE NEW COOL", with the hope of raising awareness and money to provide needed funds to "Hudson Tri-Cities" to help youth get involved in organized sport. Staying active through sports creates a positive atmosphere for our youth in the Tri-Cities. Let's make a difference that lasts!

## TRANSLINK - SERIOUS ISSUE

TransLink has informed us that a small group of Charles Best students are getting on the public bus in front of our school to go to Como Lake Village without paying the fare. As well, some of them continue to vape while they are on the bus. TransLink will have plain clothes officers on these buses and will charge the students. The fine for such violations is \$173. If the students do not pay this fine, they will have to pay it whenever they go to renew or get their driver's license and at that time the fine will double. Most importantly this disrespectful behavior shines a bad light on the rest of our students. If your son or daughter has any information as to the few individuals we need to speak with, please let us know and of course this will be confidential. Thank you for your help and support.

## CONTRIBUTIONS TO OUR SCHOLARSHIPS & BURSARIES

On behalf of Dr. Charles Best Secondary School we would like to extend our appreciation of your support of your child's learning needs. Dr. Charles Best has a population of over 1400 grade nine to twelve students, and over

350 grade 12 students. We are proud to offer our students the opportunity to be prepared for a future which will hopefully include a post-secondary education. Most students look forward to attending a university, college or a technical institute in order to gain the education and training required to attain their career goals. Unfortunately, the annual increase in the cost of post-secondary education adds another challenge for some of our students.

At Dr. Charles Best, we are pleased to offer our graduating students scholarship and bursary opportunities that we hope will support their future educational plans. A number of organizations and businesses presently support our program. We would be pleased to include your company or contribution as a sponsor for all or part of one of our local scholarships and bursaries. A tax receipt from our district office will be issued with a minimum donation of \$25.00.

Your financial contributions could help support a student in their post-secondary journey. It will also send an important message to our students that their success beyond secondary public education is attainable and as a community, we support one another. Even a small donation can impact a student in a big way. Thank you for your consideration and we look forward to discussing the possibility of having your support for a scholarship at Dr. Charles Best.
