

A Special SFU Philosophers' Café for Teens

30 Nov. 2010

Presented by: Gifted (LD) Parent Advocacy Group - Surrey

Here is an opportunity for all your deep thinking teens to engage in a level and style of discussion they will not find anywhere else. This is the place to express their thoughts and opinions or they can just sit in and listen in a friendly, engaging and positive environment.

Please encourage your teen/student to come out and participate in what can become an ongoing, enriching and fulfilling activity.

Things We Take For Granted

Free Will, Equal Rights and Personal Identity are among the many things we often take for granted. Do they really exist and if not is it "useful" to believe they do? Bring your ideas, questions and thoughts to share.

Moderator: Dr. Graham Forst.

Dr. Forst has taught English Literature and Philosophy at American and Canadian universities for 40 years. He is currently teaching in the Continuing Education departments of both Simon Fraser University and the University of British Columbia and has been moderating the successful SFU Philosophers' Cafés for the past four years.
