June 6, 2019

Dear Parents and Guardians of the Graduating class of 2020,

The 2019-2020 school year begins the full implementation of the BC Re-designed Curriculum. One of the changes to the new curriculum is in Career Education. In Grade 10, your son/daughter would have taken Career Life Education (CLE), which was formerly Planning 10. Now in grade 12, students will receive a letter grade and percentage for Career Life Connections (CLC), which was formerly the Graduation Transitions Program (GTP). CLC encompasses the following Big Ideas:

- Career-Life Development
- Career-Life Decisions
- Engaging in networks and Reciprocal Relationships
- Well-being
- Career Life Opportunities

Along with the above Big Ideas the CLC curriculum requires student to complete a Capstone project. The capstone includes, but is not limited to, two stages:

- the preparation process – students reflect on experiences in school and out of school, assess development in the Core Competencies, and share highlights of their learning journey
- the capstone product – students design, assemble, and present a capstone

Please see the Provincial website for specific details: <https://curriculum.gov.bc.ca/>

CLC will be delivered through a 50 minute career homeroom/advisory once a month throughout the 2019-20 school year. These dates will be on the school calendar in September and reminders will be published in the Informer and pushed out on the school app (MySchoolDay).

In preparation for the new CLC course we are suggesting that all grade 11 students start working on the CLC assignments that they were sent via OneNote or that can be found on the school website: Programs & Services > Career Life Connections. Completed assignments can be uploaded into the OneNote Notebook and they will be marked in September. If you have any questions, please contact Ms Royle (vroyle@sd43.bc.ca)

Have a wonderful summer!

Sharon McKay
