# Getting Started with the Family Portal

## How do I access the system?

You can log on to MyEdBC's Family Portal from any computer that connects to the internet.

### MyEdBC Access

You will receive an email with your login and password information. Please check your JUNK or SPAM folder for the email.

1. Find the MyEdBC link at your school website.
2. Enter your LoginID and Password.
3. The first time you log on, you will be prompted to change your password.

## I lost my Login ID or Password

The image shows a login interface with two input fields. The top field is labeled 'Login ID'. Below it is a second field, likely for a password. A green arrow points from the text 'I lost my Login ID or Password' to the second field. To the right of the second field is a button labeled 'I forgot my password'.

If you have lost or forgotten your password use the "I forgot my password" link on the login page. This will only work if you have logged in previously and entered your email address.

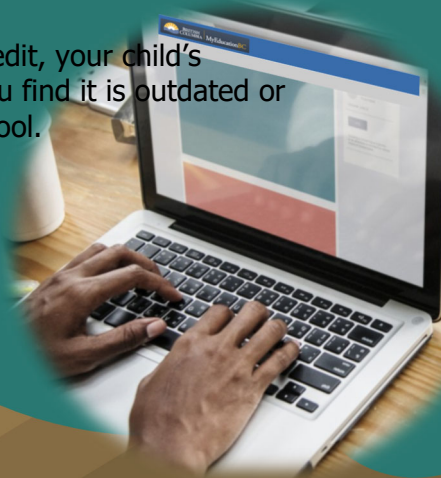

If you did not receive an email – please contact your school requesting assistance:

## Is my child's information secure?

MyEdBC protects student information by following the rules and regulations of the School Act and Freedom of Information and Protection of Privacy Act (FIPPA). Users only have access to their own information.

You can only view, not edit, your child's demographic data. If you find it is outdated or incorrect email your school.

## MyEd Family Portal Implementation Tips

- Provide “How to activate your account” help documents (provided) by email and on your school website to families for reference
- Ensure parents complete the first log in experience on a computer and NOT a mobile device
- Clearly communicate the password standards (8 digits, at least 1 number, letter, capital, and 1 special character)
- Remind Parents/Legal Guardians to use the “I forgot my password” option if they have failed to log in 3x in a row. Their account will be disabled if they complete 5 failed attempts.
- Remind parents that this is a Ministry system and as such they will be required to reset their password every 90 days for security and privacy purposes
