Popularity Casting Call & Film Crew

Short film summary:

Popularity is about a girl named Sam struggling with her identity through high school, trying to change herself to fit in. Makeup plays a big role in this film as she uses it to fit in with a popular girl but ends up changing herself in the process. Her friends trying to understand what's going on try to help her. The only words spoken is, "Sam" everything else is shown through emotion, this is to show her identity crisis as your name is a representation of your identity and having people saying it to you and you saying it while you don't know who you are is hard.

Characters:

Sam: Sam is the type of person who knows what she wants but is hesitant to say or speak her mind, she is always listening to others but never having others listen to her. She cares very deeply for her friends but uses them as her comfort zone keeping her from growing. She is smart and funny, but depression is weighing her down.

Popular girl: the popular girl is immature and toxic and creates a space where she needs others to feel bad for her to feel better about herself. She is funny and lovable but only if you are her friend.

3 friends: The friends are always there for advice and a helping hand, they genuinely care for Sam. They are all loyal and trustworthy people who will drop anything to help a friend.

Film crew: I will need 2 people to film with editing experience.

Casting will start at the beginning of May.

The film will take 1-2 weeks; if interested email me and I will send you the script and shot list.
