See you there!

PIZZA PARLORS

PIZZA NIGHT FUNDRAISER!

Mention Heritage Woods After-Grad
when you order for take-out,
dine-in, or delivery
on Wed December 13

Me-n-Ed's will donate 20% of the sales back to the school!

Port Coquitlam 604-942-1200

Get ready for a tasteful way to back the Grade 12's After-Grad Event!

Mark your calendars for **Wednesday, December 13**, and indulge in delicious pizzas from Me N'Ed's Pizza in Port Coquitlam (604-942-1200).

Don't forget to drop the magic words, "Heritage Woods After Grad" when placing your order, as 20% of the sales on that day will go towards supporting the After-Grad Event in June 2024.

AFTERGRAD 2024 FUNDRAISING GOAL

HWSS AFTERGRAD'24 FUNDRAISING PROGRAM

THE WASP WILDFIRE PROTECTION KIT GETS WATER TO THE HOME'S ROOF AND SURROUNDING AREAS, WHERE IT'S NEEDED MOST DURING WILDFIRE

The WASP Gutter Mount Sprinkler System is designed specifically to perform well in wildfire conditions, and is equipped with wind fighting, agricultural grade sprinkler heads. Made in the USA, these sprinkler heads create an area of humidity around the structure and are specifically designed to extinguish wind-blown burning embers, while at the same time conserving precious water. Statistics show the majority of structures lost to wildfire are more than a mile away from the actual fire line. If evacuation does happen, the owners can clip the sprinklers onto their gutters and leave, knowing the firefighters can turn them on if needed. Working together, home owners can greatly reduce the risk of loss to wildfire while safely evacuating the area when under threat.

The patented Gutter Mount Wasp sprinklers are now required equipment for both fire departments and contractors under contract with British Columbia Wildfire Services Canada, one of the most respected government firefighting services in the world.

The Kit Includes:

2 Patented WASP Gutter Mount Sprinkler Brackets; With built-in adjustment for higher roof pitches. Gets water to the roof where needed to protect the home from wind-blown burning embers.

2 Forestry Grade Lay-flat Hoses; In 25 foot lengths with standard garden hose connectors.

2 Agricultural-grade Wind Fighting Sprinkler Heads; Each sprinkler is rated for a 33 foot spray radius. The sprinkler heads can operate at very low pressure and are rated at 1.5 - 2.5 gallons per minute.

2 Patented WASP Fence/Fascia Mounts; For homes without gutters, or for mounting sprinklers to walls, fences, etc. to protect equipment and other gutterless structures.

HWSS COMMUNITY SPECIAL PRICING \$199.95

excluding taxes / 37% of each purchase goes direct to AfterGrad2024 fundraising

CAREER CENTER

Introduction to Rebar

Local 97 will be running a high school "Introduction to Rebar" class in Maple Ridge. This 2-week bootcamp (80 hour) will teach you the basic skills to work on a reinforcing project. Week 1, will be held during Spring Break and Week 2 will be held the beginning of July. After successfully completing your second week, you will receive the required tools and be placed on a jobsite. Starting rate after finishing this class is \$29.27/hour plus vacation pay and benefits. After 6 months on the job the union will sponsor you in an apprenticeship. After completing your schooling and becoming a ticketed journeyman ironworker, you can earn up to \$45.03/hour plus vacation pay and benefits. If you are interested in getting into the trade please contact KC Newman.

- Week 1— you choose the week that works for you

Option 1 - March 18 to 22, 2024

Option 2 - March 25 to 29, 2024

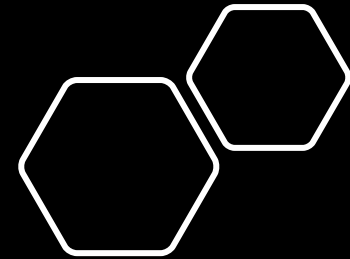

- Week 2 will take place from July 2 to 5, 2024
- No cost to attend the class
- Maximum 12 people will be accepted into each bootcamp
- Class will run Monday to Friday, 8am to 4pm

Call the Trade Improvement Office 604 874-6010 or

Email: kc@ironworkerslocal97.com
