**All Schools**  
**School District No. 43 (Coquitlam)**

Dear Principal:

**Re: Parking Regulations near Coquitlam Schools**

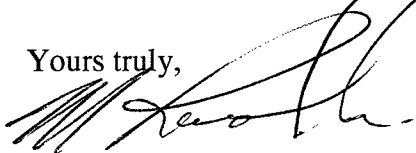

School is back in session once again and the City of Coquitlam would like to support and reinforce the message to motorists on the importance of observing the parking regulations in effect in school zones. While the vast majority of motorists respect the posted no parking and no stopping rules around schools and understand that those rules are driven by safety concerns, a minority fail to obey those rules and place school children and other motorists at risk. This year the City of Coquitlam Bylaw Department is continuing our School Liaison Program designating 1 Bylaw Officer to liaison with all the schools, making contact with the PAC members and attend meetings on the concerns related to their individual schools.

Beginning on **Monday, September 27, 2010**, City Bylaw Enforcement Officers will be stepping up traffic enforcement around Coquitlam schools. There will be random patrols at Coquitlam schools during both the morning and afternoon peak traffic periods. Officers will be noting license plates of vehicles parked or stopped contrary to posted signs and traffic violation tickets will be issued, either to the vehicle driver at the time the violation is recorded or to the vehicle owner by mail. We hope that this enhanced enforcement will provide safer streets in the vicinity of Coquitlam's schools.

Please feel free to alert parents and students to the enhanced enforcement that they can anticipate near Coquitlam schools.

If you have any particular parking concerns relating to your school, please do not hesitate to contact me at 604-927-7381 to discuss the same.

Yours truly,

Michael Romashenko  
Bylaw Enforcement & Animal Services Inspector
