CODING AND DESIGN**BY: FUSION EDUCATION**

Through guided and instructed play, students will use the Engineering Design Process (EDP) in conjunction with coding software to create projects including games and solve challenges. By exploring, inquiring, generating ideas and testing them, students will understand EDP is a tool they can apply to all subjects and most situations. This after-school program is aimed at enhancing students' critical and creative thinking and problem solving through coding and design.

For returning students, they will be guided to create their own projects in a manner that is within the tools/knowledge they have acquired in the previous level. These students will be encouraged to share their plans and creations with their peers, and redesign and improve their projects according to the feedback they receive.
