Parent Presentation: Online Risks and Emerging Trends – April 27th.

Learning more about ways to “Stay Safer Online” continues to be an important conversation as we use technology increasingly in our everyday lives. This session, presented by the Canadian Centre for Child Protection in partnership with SD43, will provide helpful information, strategies, and resources on ways to talk to your children and youth about the digital world, and how to live safely within it. See the attached flyer for more details and for the registration link. There are a limited number of spaces for this event, so please only sign up if you plan to attend.
