

Legacy Project 2012

It is an annual tradition at Terry Fox for the graduating class to select a worthy cause, enabling the Group to espouse Terry's values of kindness, passion, and determination. Over the next few months, the Legacy Team will plan, implement and volunteer at a variety of fundraising events.

This year, The Legacy Team is comprised of more than 30 grad students, coming together with a common goal – to fundraise for 'Baby Lina' as she battles neuroblastoma – the most common tumour found in infants, and the third-most common of all childhood cancers. Lina is a precocious little warrior – full of smiles, warmth and curiosity – The Legacy Team supports Lina and her family in their quest for a cancer-free childhood (and a cure!)

Please visit www.teamlina.com for more information, or www.neuroblastoma.ca.

The Legacy Project is also proud to support Connor Gabriel, a graduating student, who is participating in the "Ride to Conquer Cancer" this year. All proceeds from this massive event go to the BC Cancer Foundation – Connor is riding the 'Challenge Route', inspired by his hero, Terry Fox, and the strength and determination of several family members battling cancer right now. Visit his personal profile at:

If any parents can volunteer time and/or skills, or donate raffle items, funds, products, secondhand baby items for swap meets, etc. **please** contact Jenn Fort (jfort@sd43.bc.ca) or Nina Norlin (nnorlin@sd43.bc.ca) We would be grateful for your help, and appreciate your continued support and generosity towards the programs we run at Terry Fox.

Currently, we are working on a **Cell Phone Recycling Project** – please donate all your old cellphones, ipods, digital cameras, GPS units, laptops to us ! (No desktops, televisions, monitors, etc) Not only will you be protecting the environment from unnecessary landfill toxicity, the money raised will help a very worthy cause. Any items that are still in working order may have individual face value; please indicate if your item is working or not.
