Education Learning Centre Update #5

The Education Learning Centre construction is progressing on schedule for occupancy in Spring 2022 and is currently approximately 35% complete.

Exciting developments over the last few weeks see the glulam beams going up over the Board Room area and the dramatic entrance Atrium.

Mechanical and electrical infrastructure continues to be roughed in and concrete slab pours follow.

Work continues for our underground services onto and through the site.

Off site the civil contractor is working on upgrading the water main on Winslow Avenue and the fire hydrant service and underground throughout the site.

Roofing is progressing over the north and south ends of the building with the Atrium soon to follow.

Steel studs are being erected at the outer walls. We can now see the full skeleton of our building and how nicely it sits on our site.

Our thanks to the Senior Project Manager – Meigan Scott – who leads this project and for this report update.

Yours Truly,
The Education Learning Centre Steering Committee

Patricia Gartland
Superintendent

Chris Nicolls
Secretary-Treasurer/CFO

Ivano Cecchini
Executive Director
