

CAMP IGNITE MENTORSHIP PROGRAM 2020

January 22, 2020

We are excited to bring the Camp Ignite Mentorship Program back to all lower main-land municipalities for another year. It is important to note that the continued success of this mentorship program is due, in large part, to the on-going support we've received from the many fire departments, union locals, and school districts and volunteers.

This year's program will take place August 6th to August 9th. We are aiming to have 24 girls, aged 16-18, take part. As this is no small task, we ask that you assist us in making these selections. In the past this was done by having a Fire Department representative work in concert with a career counsellor from your local school district.

NEW THIS YEAR. In an effort to streamline the application process we will be receiving all applications at campignitebc@gmail.com and will then send them to your representative by May 25th.

We will require the name of your chosen participant(s) no later than June 8th. This will allow us to provide the names to SFU Accommodation and do all the required planning for the program.

The application is attached here and is also available on our website www.campignite.com with a closing date of May 22nd. We have attached a poster for you to send out to your school district and for your use on social media.

We thank you all in advance for your continued support of Camp Ignite. Any new contact details (name, email, phone, and address) are to be sent to:

campignitebc@gmail.com

For more information about Camp Ignite please visit our website at www.campaignite.com or view the 2019 Camp Ignite video at <https://vimeo.com/353727827> .

Sincerely yours,

The Camp Ignite Directors:

Jennifer Dawkins - Vancouver Fire & Rescue

Mary Foster - Maple Ridge Fire & Rescue

Heather Wilson - Burnaby Fire Department

Haida Fortier - North Vancouver City Fire Department

Tara Griffith - Mission Fire Department
