

# New Elementary on Sheffield Avenue\* Catchment Announcement

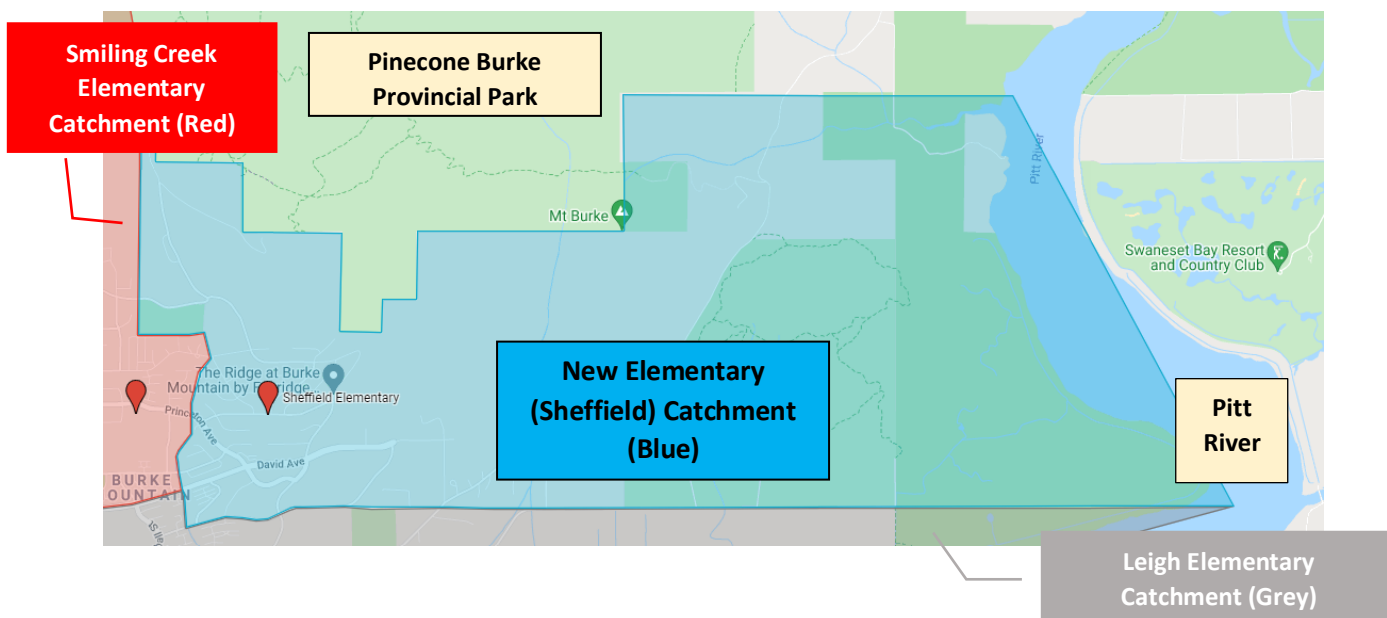

May 12, 2021

- As part of our annual boundary review process and in preparation for the new school opening on Burke Mountain, it has been determined that boundaries for the new school at 3538 Sheffield Avenue, Coquitlam, should be established.
- Multiple catchment options pursued and analyzed.
  - A variety of factors were considered including optimizing proximity and access as well as creating a sustainably sized catchment.
- After surveying parents and staffs of affected neighbourhoods as well as consulting with partner groups, the district has made the decision to go forward with the catchment as described below.

## New Catchment Area:

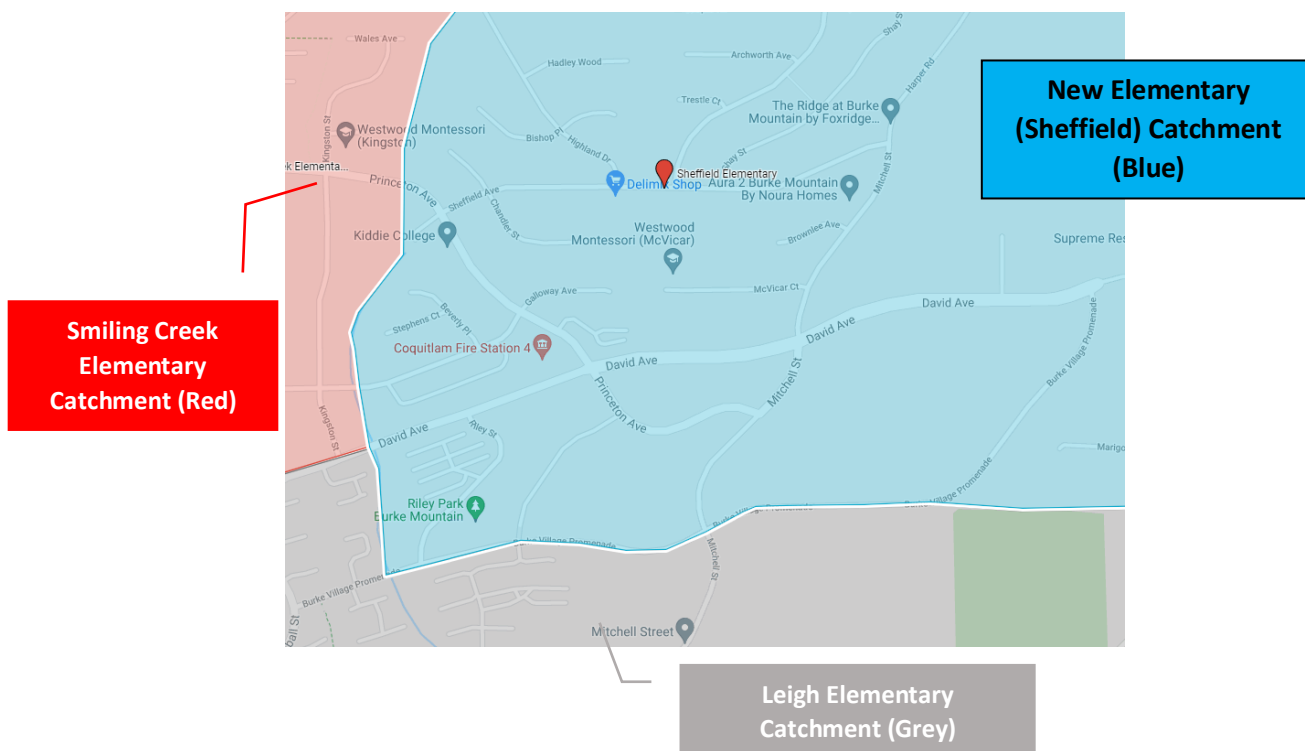

- The catchment area will be based on what was presented to the public for feedback but will also extend south to include the area from the ravine east of Kingston Street to Mitchell Street and north of Burke Mountain Promenade.
- The new catchment area will affect all new students.
- Current students living in the new catchment can opt to go to the new school.
- Students who would like to remain in their existing school can do so.
  - Siblings may attend the current school through the Grandfather Clause.

## Diagram of the New Catchment:

# New Elementary on Sheffield Avenue\* Catchment Announcement

Southwest Corner of the Catchment (in blue):
