What is HCAP?

The **Health Career Access Program (HCAP)** is a paid work and training program for people looking to start their health care career.

You can expect:

- Paid on-the-job training
- Fully-funded tuition
- Stipend to attend school
- Your registered care aid license (**upon graduation**)

Not sure what you want to do but you know you want a career making a difference?

Consider joining HCAP today!

So what?

The HCAP is a joint initiative between Fraser Health and the Ministry of Health focused on training and supporting the next generation of community health workers.

What do community health workers do?

Community health workers provide personal care and assistance to support clients remain independent at home.

You'll work together with your team to make positive impacts in the lives of your clients, every day.

Why Home Support?

From your orientation, to your education, to your employment as a registered care aide – we will be with you every step of your HCAP journey.

You'll be supported through regular check-ins and additional professional development opportunities.

We help our HCAP participants get the most out of the program so they are prepared for an exciting health care career.
