Community Update on addressing Anmore Green Estates Septic Field Failure

Coquitlam, BC (February 11, 2021)

SD43 is pleased to advise that Anmore Green Estates (AGE) has signed a License Agreement with SD43.

This agreement provides access to the statutory right of way on which the Anmore Green Estates sewer connection can be constructed. This follows the SD43 Board of Education approval on December 21, 2021, of legally establishing the statutory right of way. AGE has advised that they are ready to proceed to tender later this month with the signing of this agreement. Tender closing is anticipated at the end of March.

Construction works are expected to occur and be completed during the 2022 summer – between June 30 and September 5, 2022. This schedule avoids disruption to student learning while ensuring that the construction is completed in a safe environment.

Both parties have worked hard to overcome and resolve the remaining issues as outlined in our previous communication of December 31, 2021.
