## **Community Update on addressing Anmore Green Estates Septic Field Failure**

**Coquitlam, BC (September 1, 2020)** – The Coquitlam School District (SD43) provides this update to keep our community informed on the latest activities in addressing the issues associated with Anmore Green Estates septic field failure since our last community update of July 10, 2020.

As noted previously, SD43 provided Anmore Green Estates a revised and signed Letter of Intent, which incorporated the May 12<sup>th</sup> recommendations proposed by the facilitator. Despite several follow-up efforts we have not heard back from Anmore Green Estates.

We have subsequently reached out to staff at the Ministries of Municipal Affairs and Housing; Environment and Climate Change Strategy; and Education, to determine how we might further assist in moving this project forward.

SD43 retained staff over the summer to engage with the project team to avoid any impediments in proceeding as quickly as possible.

We want to assure our Community that we have responded timely to any and all information requested of us and have worked closely with the facilitator to address and overcome the obstacles to having a solution in place as quickly as possible.
