

Code of Conduct 2021 - 2022

Suwa'lkh 2021/2022

At Suwa'lkh, we care for one another and we look after one another. But living together implies that we must follow some rules.

Suwa'ikh Code of Conduct

I. INTRODUCTION

This Code of Conduct is designed to reflect and clearly communicate what we, as a school community, value and expect in terms of student behaviour.

We believe that safe, caring and orderly schools are developed by committed, thoughtful school communities using appropriate and ever-improving policies, procedures and practices. École Montgomery Middle School's Code of Conduct outlines school expectations and acceptable student behaviour, as directed by the School Act 85 (2) (c) and the 2007 Ministerial Order, "Provincial Standards for Codes of Conduct".

II. CODE OF CONDUCT: KEY ELEMENTS

Process

The Suwa'ikh School Administrator coordinated a process of gathering input from students, and staff. Students gave input through their core classes and Community Circles. Staff members gave input and made recommendations through staff and pro-d meetings. The school staff and students review the Code of Conduct annually

1. Communication

The school will take the following steps to communicate expectations to students and the greater school community:

- Our school code of conduct is posted on our school website and, as such, is available to the public: <http://www.sd43.bc.ca/school/suwa'ikh>
- Our school code of conduct is distributed at the beginning of each year to all staff, parents and students.
- When students start at our school mid-year, we review the code of conduct with parent and student at the intake meeting.
- Key elements will be reviewed with students during the opening weeks with Community Circles and class discussions.
- All school members participate in a weekly Community Circle session based upon Restorative Circles in Schools.

2. Implementation

Each student receives direct instruction on our school's code of conduct during the first weeks of school. Parents are asked each September to read and discuss the section on our website so that the code of conduct has been reviewed. This supports that there is reinforcement of the code of

conduct both at home and school. As well, all fieldtrip notices require parents sign indicating their understanding that students are responsible for adhering to the school's code of conduct while on fieldtrips and outings.

1. Community Circles: Our students meet weekly in a smaller circle groups to discuss and learn a wide range of social communication and problem-solving skills.
2. Use of Restorative Practices as a method to help students deal with solving problems.
3. Use of consequences for serious conduct concerns (usually in partnership with restorative practices).

3. Monitoring and Review

The Code of Conduct undergoes annual review and revision, ensuring opportunities for all stakeholders to have a voice in assessing the effectiveness of the code of conduct in addressing current school safety issues.

- Classroom meetings and instruction that focus on developing the core competencies. Attention is given to strategies and techniques for students to use when dealing with stress and inappropriate conduct and work issues.
- Community Circles focus on developing student voice.
- The process of monitoring students' behaviour and reviewing school wide expectations is one that involves all staff at care and concern meetings and individual teacher conversations.

Alignment

Suwa'ikh School's Code of Conduct is aligned with our school district Code of Conduct policy (Policy 17)

District Code of Conduct – Policy 17

The Board believes it has a responsibility to establish expectations of students as part of its governance role for the district. The Board further believes that the responsibility for student discipline in school is shared among students, staff and parents. Students have a responsibility to respect the rights and dignity of others and to become actively and productively involved in their own academic learning and social growth. Educators are responsible for establishing a positive school climate in which structure, support and encouragement assist the students in developing a sense of self-discipline and responsibility. Parents are responsible for establishing a positive learning atmosphere in the home, knowing school policies and procedures, supporting the school in the enactment of these policies and procedures, and encouraging their children to understand and respect these policies and procedures. To support these aims, the Board has established a District Code of Conduct for Students, which shall be followed in all schools.

Specifically

The Board believes that appropriate student conduct, based on respect for oneself, respect for others, and respect for property is essential to the development of responsible citizens. To this end students are expected to:

- be aware of and obey all school rules;
- attend classes punctually and regularly;

- work cooperatively and diligently at their studies and with home assignments;
- respect the rights of all persons within the school including peers, staff and parents;
- respect the legitimate authority of the school staff;
- respect the school's physical school facilities;
- respect the ethnic diversity of our school community;
- behave in a safe and responsible manner at all times; and

Violence, Intimidation and Possession of Weapons - Policy 18

The Board believes that schools are purposeful places where students and staff must be able to work, learn and play without the threat of physical or psychological harm. Schools are characterized by sensitivity and respect for all individuals, an environment of non-violence, clear student behavioral expectations and disciplinary practices that are enforced consistently and fairly. The Board acknowledges its role in providing secure learning environments which are safe from threats, violence or intimidation.

Administrative Procedure 355 (Suspension of Students), Suspension of Students – AP 355

The effective management of student discipline is a necessity in establishing safe, caring and orderly school environments that foster student learning needs. When student misconduct occurs, the school and district must respond fairly, quickly, and effectively, imposing a disciplinary consequence that is appropriate to the circumstances and that reinforces for the student involved and students generally, appropriate standards of student behavior.

The Principal has overall responsibility for the maintenance of student discipline and school rules. Under the general supervision of the Superintendent and subject to administrative procedures, a Principal and/or Vice Principal has the authority to suspend or remove a suspension imposed on a student.
