

Code of Conduct

Suwa'lkh 2024/2025

**At Suwa'lkh, we foster an environment of respect – for ourselves, each other
and the space we are in.**

To this end we have structures that help guide our conduct.

Suwa'lkh Code of Conduct

I. INTRODUCTION

This Code of Conduct is designed to reflect and clearly communicate what we, as a school community, value and expect in terms of student behaviour.

We believe that safe, caring and orderly schools are developed by committed, thoughtful school communities using appropriate and ever-improving policies, procedures and practices. Suwa'lkh's code of conduct outlines school expectations and acceptable student behaviour, as directed by the School Act 85 (2) (c) and the 2007 Ministerial Order, "Provincial Standards for Codes of Conduct".

II. CODE OF CONDUCT: KEY ELEMENTS

Process

The Suwa'lkh School Administrator coordinated a process of gathering input from students, and staff. Students gave input through their core classes. Staff members gave input and made recommendations through staff and pro-d meetings. The school staff and students review the Code of Conduct annually.

1. Communication

The school will take the following steps to communicate expectations to students and the greater school community:

- Our school code of conduct is posted on our school website and, as such, is available to the public: <http://www.sd43.bc.ca/school/suwa'lkh>
- Our school code of conduct is distributed at the beginning of each year to all staff, parents, and students.
- If a student starts at our school mid-year, we review the code of conduct with parent and student at the intake meeting.
- Key elements will be reviewed with students during the opening weeks through class discussions.

2. Implementation

Each student receives direct instruction on our school's code of conduct during the first weeks of school. Parents are asked each September to read and discuss the section on our website so that the code of conduct has been reviewed. This supports there is reinforcement of the code of conduct both at home and school. Additionally, all fieldtrip notices require parents to sign indicating their understanding that students are responsible for adhering to the school's code of conduct while on fieldtrips and outings.

1. Community Circles: Our students meet weekly in a smaller circle groups to discuss and learn a wide range of social communication and problem-solving skills.

2. Use of Restorative Practices as a method to help students deal with solving problems and when participants are willing.
3. Use of consequences for serious conduct concerns (usually in partnership with restorative practices where appropriate).

Monitoring and Review

The Code of Conduct undergoes annual review and revision, ensuring opportunities for all stakeholders to have a voice in assessing the effectiveness of the code of conduct in addressing current school safety issues.

- Classroom meetings and instruction that focus on developing the core competencies. Attention is given to strategies and techniques for students to use when dealing with stress and inappropriate conduct and work issues.
- Community Circles focus on developing student voice.
- The process of monitoring students' behaviour and reviewing school wide expectations is one that involves all staff at care and concern meetings and individual teacher conversations.

Alignment

Suwa'ikh School's Code of Conduct is aligned with our school district Code of Conduct policy (Policy 17)

District Code of Conduct – Policy 17

The Board believes it has a responsibility to establish expectations of students as part of its governance role for the district. The Board further believes that the responsibility for student discipline in school is shared among students, staff and parents. Students have a responsibility to respect the rights and dignity of others and to become actively and productively involved in their own academic learning and social growth. Educators are responsible for establishing a positive school climate in which structure, support and encouragement assist the students in developing a sense of self-discipline and responsibility. Parents are responsible for establishing a positive learning atmosphere in the home, knowing school policies and procedures, supporting the school in the enactment of these policies and procedures, and encouraging their children to understand and respect these policies and procedures. To support these aims, the Board has established a District Code of Conduct for Students, which shall be followed in all schools.

Specifically

The Board believes that appropriate student conduct, based on respect for oneself, respect for others, and respect for property is essential to the development of responsible citizens. To this end students are expected to:

- respect themselves, others and the school;
 - Engage in purposeful learning activities in a timely manner
- help make the school a safe, orderly and caring place
- work cooperatively and diligently at their studies
- respect the rights of all persons within the school including peers, staff and parents;
- respect the legitimate authority of the school staff;
- respect the school's physical school facilities;

- discriminate against a person or class of persons regarding any accommodation, service or facility customarily available to the public because of the Indigenous identity, race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation, gender identity or expression, or age of that person or class of persons., or for any other reason set out in the Human Rights Code of British Columbia (Section 7 and 8), nor shall a student publish or display anything that would indicate an intention to discriminate against another, or expose them to contempt or ridicule, on the basis of any such ground
- not threaten, harass, bully, intimidate or assault, in any way, any person within the school community
- possession, use, distribution of electronic cigarettes, vaporizers, marijuana, and other drugs including alcohol under the "banned substances" section

Suwa'ikh School Code of Conduct is also supported by Policy 18 (Violence, Intimidation, and Possession of Weapons),

Violence, Intimidation and Possession of Weapons - Policy 18

The Board believes that schools are purposeful places where students and staff must be able to work, learn and play without the threat of physical or psychological harm. Schools are characterized by sensitivity and respect for all individuals, an environment of non-violence, clear student behavioral expectations and disciplinary practices that are enforced consistently and fairly. The Board acknowledges its role in providing secure learning environments which are safe from threats, violence or intimidation.

Administrative Procedure 355 (Suspension of Students), Suspension of Students – AP 355

Effective management of student discipline is a necessity in establishing safe, caring and orderly school environments that foster student learning needs. When student misconduct occurs, the school and district must respond fairly, quickly, and effectively, imposing a disciplinary consequence that is appropriate to the circumstances and that reinforces for the student involved and students generally, appropriate standards of student behavior.

The Principal has overall responsibility for the maintenance of student discipline and school rules. Under the general supervision of the Superintendent and subject to administrative procedures, a Principal and/or Vice Principal has the authority to suspend or remove a suspension imposed on a student.

Section 85 of the School Act, Policy 13 (Appeals Regarding Student Matters)
