

Technology in the Classroom (BYOD)

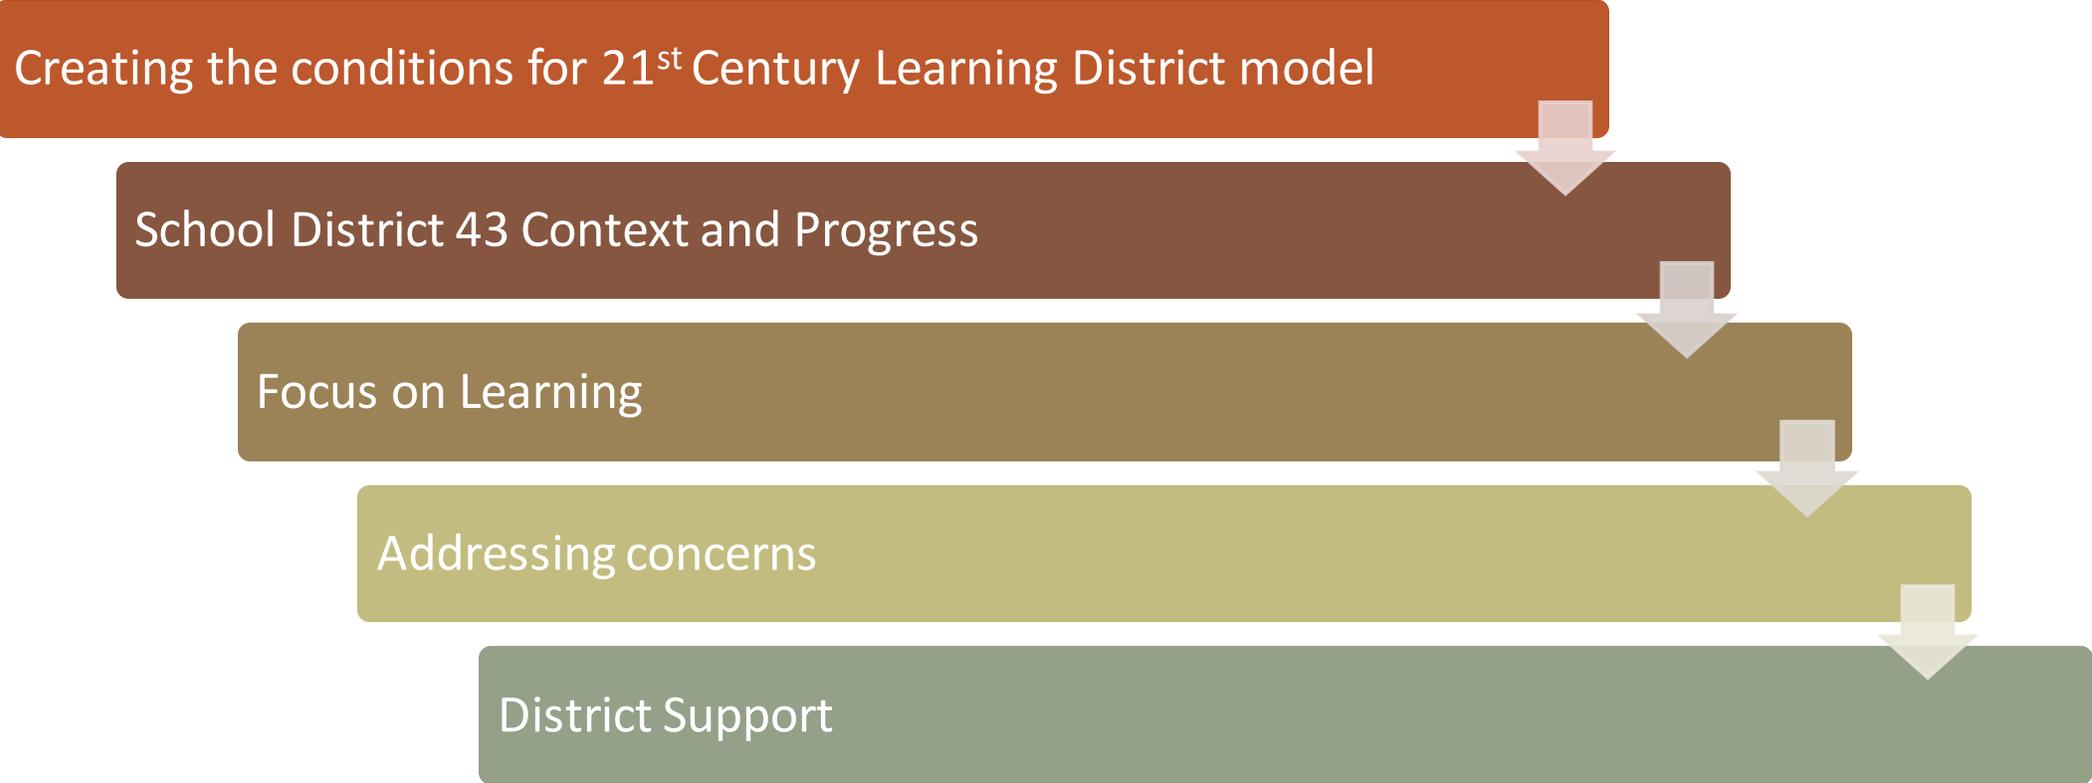

SCHOOL DISTRICT #43

DAVE SANDS PRINCIPAL OF TECHNOLOGY IMPLEMENTATION

District Perspective and Support

Creating the conditions for 21st Century Learning District model

School District 43 Context and Progress

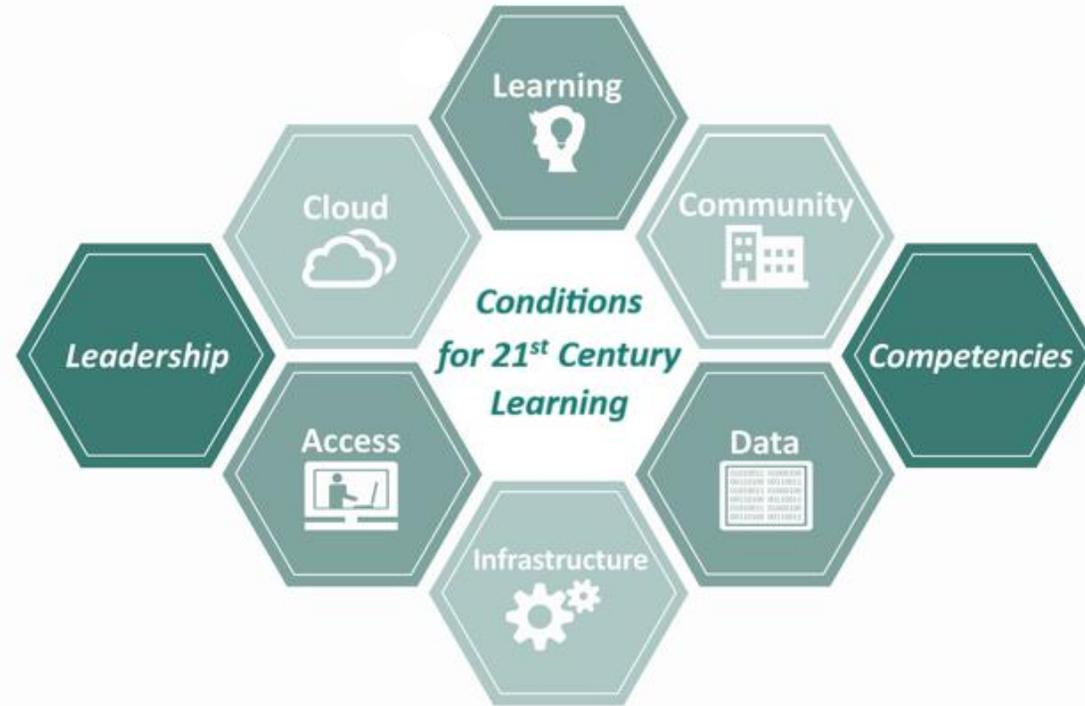

Focus on Learning

Addressing concerns

District Support

District 43 Model

Creating the Conditions for 21st Century Learning

A little Context...

The Now

- Several (25) existing technology in the classroom examples throughout the District

The Future

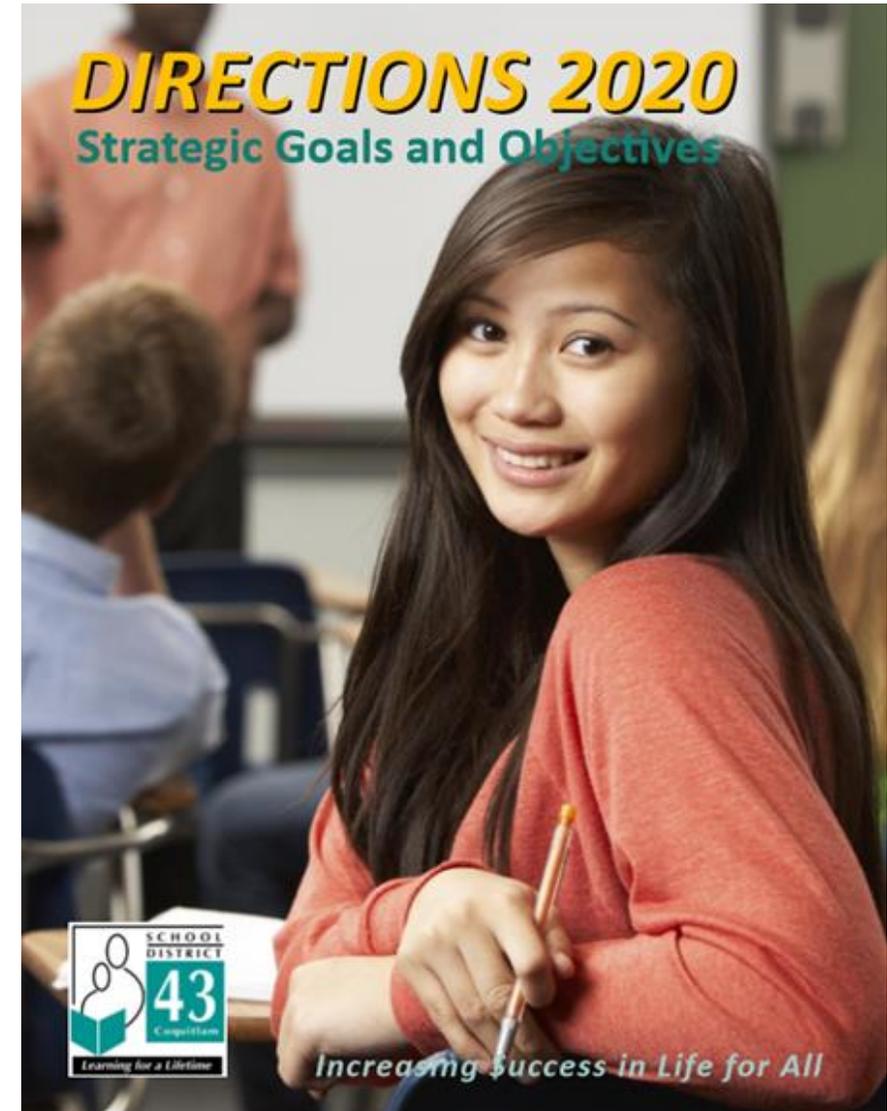

- We have been actively encouraging Secondary and Middle Schools to move to this model – and we are almost there

Core Values:

- It is not about technology – it is about learning!
- District Vision – Directions 2020

District Investments

- Bandwidth and wireless infrastructure
- Support for teachers

Richer learning through...

- Always available **Access**
- Focus on **Creation**
- Drive for **Deeper Inquiry**
- Secure **Cloud-based Tools**

In search of...

Personalizing learning

Overcoming learning barriers

Developing Social Responsibility

“Blurring the line between living and learning”

There are
concerns to be
addressed...

Personal Responsibility

Screen Time

And ...

Digital Citizenship

School and classroom
expectations
