**Omnisexuality is similar to pansexuality in the way that you are attracted to people of all genders, but the gender is a factor in the attraction. Omnisexual people often will have a preference in which gender they prefer.**

# Transgender

**Being transgender can mean you don't identify with the gender you were assigned at birth. This can mean you were called a boy at birth but you are a girl. Being transgender doesn't mean you have to get surgeries or take hormones, but many people do. Being trans doesn't always mean you're a girl or a boy, it can be non-binary too.**
