

# Hello **JUNE**

June 28, 2022

# LOST AND FOUND

The following lost items have been turned into the office. If any belong to you, please come to claim them.

# Reminder to Grade 12s:

**If you won a scholarship from the local package you need to see Ms. Butler ASAP to learn how to claim your award and thank your donor!!**

# ***Work at the PNE FAIR this Summer***

- Come work for the iconic PNE Fair! We need 1000+ enthusiastic and dynamic employees to work in a wide variety of departments.
- Applications can be submitted via the QR code or on the PNE website at [www.pne.ca/jobs](http://www.pne.ca/jobs)
- Successful applicants will be invited to attend a virtual group interview in July. The interview invitation will allow all candidates to choose their preferred Fair jobs.

# Looking for a job?

- Throughout the year many employers reach out to SD43 Career and Trades with a variety of job opportunities.
- Food service, construction companies, landscaping, collision repair, electrical companies and more!
- Construction, pre-apprentice plumbing, servers, line cooks, labourers, hosts/hostess, landscapers, sign fabricators, apprentice electricians, stockperson and more

# #Indigenoushistorymonth

**Mary Two-Axe was a Mohawk Indigenous woman born on the Kahnawake reserve in Quebec. When Mary was only 18 years old she moved to New York City where she met her husband, Edward Earley. After marrying she was unable to participate and embrace her culture due to the oppressive laws set in place for Indigenous Women, rules were changing so she changed them. She pushed several bills amending the Indian act to remove measures of stripping indigenous women of their culture and heritage after marriage. And she founded the Equal Rights of Indian Women Association in 1968.**

# Youth Innovation Showcase

- The **2022 Youth Innovation Showcase** is looking for youth from across BC and the Yukon who are working on the next STEM breakthrough. Innovations big and small are invited to register for this year's virtual competition by submitting a 45-second pitch video explaining your innovation. Finalists will pitch their ideas live to industry experts in November for a chance to win \$5,000.
- The Youth Innovation Showcase encourages youth to explore creative ways to solve everyday challenges, and to see how your theoretical solutions can become real-world change. These young innovators come face-to-face with industry and academic leaders to pitch their great new ideas and inventions, get feedback from experts in the field, and find out where a career in STEM can take them.
- **Eligibility:**
  - To be eligible to participate in the 2022 Youth Innovation Showcase, you must:
  - Be between 12 and 19 years old
  - Live in BC or the Yukon
  - Individuals and teams (2 people maximum) are permitted to participate.
