# What are Schulich Leader Scholarships?

Schulich Leader Scholarships are Canada's most coveted undergraduate STEM scholarships. One hundred are awarded to entrepreneurial-minded high school graduates enrolling in a Science, Technology, Engineering or Math program at 20 partner universities across Canada. Half are valued at \$120,000 for engineering scholarships and half are valued at \$100,000\* for science and math scholarships. Every high school in Canada can nominate one graduating student each year to apply for the scholarship.

**If you will graduate in June 2025, are planning to apply to a STEM program at a partner Canadian university and have more to offer than just good grades, now is the time to see if you might be a Schulich Leader Scholarship nominee candidate.**

**Heritage Woods can nominate ONE student only. You cannot be intending a career in the medical field.**

**Visit the website to see profiles of past winners as well as partner universities. <https://schulichleaders.com/>**

**Stay tuned as information about the process for HWSS nominations for Schulich Leader Scholarship will be available at the Fall 2024 scholarship meeting. Applications for nomination will be due in early January 2025.**
