wrap free, waste free

Who are we?

We are two Environmental Science 12 students and we want to reduce plastic usage at Heritage Woods.

What is our goal?

Our goal is to replace the plastic wrap in our cafeteria and educate YOU how to recycle effectively.

What have we accomplished?

We have replaced the harsh saran wrap used in the cafeteria to a recyclable plastic.

Plastic Waste

- Plastic doesn't just go away when you throw it away. Plastic stays on this earth for thousands of years after.
- Plastic breaks down slowly into microplastics.
- Microplastics end up in rivers, soil, and oceans, harming wildlife and entering the food we eat.
- When plastic is sent to landfills to decompose, it releases a significant amount of carbon dioxide emissions into the atmosphere, killing our planet.

COMMUNITY

UBC Black Futures

- The Black Futures program is a unique opportunity for Gr. 11 and 12 Black students from across Greater Vancouver to be introduced to post-secondary options and discussions about higher education.
- Last year’s program was hugely successful, and we anticipate that this year will be too. With a slogan of “if you can see it, you can be it”, it allows students to envision their academic future. **Students DO NOT need to be planning on attending UBC to be a part of this program.**
- The program consists of four in-person meetings at UBC. High school students will meet with UBC students, as well as a variety of faculty and other professionals. There is no cost for students to attend. Transportation to and from UBC will be provided and students will be chaperoned by SD43 teachers.
- If you are interested, please see Ms. Butler by **December 18th**, to add your name to the list—there are only 10 spots available, so don’t wait!
