

2025-2026 École Kilmer Elementary Code of Conduct

I. INTRODUCTION

The purpose of this document is to provide a basic framework and common expectations for École Kilmer Elementary School. The Code of Conduct applies to all school related events. This includes activities that take place before school, during instructional time, and after school. School boards and schools are entrusted through the *School Act* with authority to establish codes of conduct. Although most schools have codes of conduct in place, it is expected that all British Columbia schools will revisit existing codes and/or develop new codes of conduct reflecting the provincial standards.

School Mission: Reaching for the stars- Un peu plus haut, un peu plus loin.

II. CODE OF CONDUCT: KEY ELEMENTS

1. PROCESS

All British Columbia schools include students, parents and staff in the development and review of codes of conduct. The history of Kilmer's Code of Conduct is as follows:

2003-2005 Kilmer staff, students and parents worked together in the development and review of the Kilmer Code of Conduct. We also worked with the "South Side Family of Schools" to ensure that a common language and common expectations are in place as students move from elementary to middle and on to high school. In collaboration with the staff, students and parents, we developed a 3R's focus (Respect Myself, Respect Others and Respect the Environment) that supports students and parents in understanding what kinds of behaviours are acceptable and unacceptable.

2006-2014 The Kilmer Code of Conduct was reviewed with students, staff, School Planning Council (SPC) and PAC.

2013-2014 Development of Matrix of Language for Behaviour Expectations in child friendly language. Focussed on the DOs not the DON'Ts.

2014-2017 Extended our Matrix to collect information from families on how positive behaviours could be focussed on in various home and community environments. A community matrix was circulated to all parents and daycares in paper form and email. Continued to work on common language and solving problems in peaceful ways.

2018-2021 Matrix reviewed updated as needed to align with restorative practises.

2023-2024 Code of Conduct and Matrix of Behaviour Expectations reviewed by Staff, KPAC Executive and suggestions for updates addressed with all staff and community members.

2024-2025 Renewed focus and attention on the 3Rs, Matrix of Behaviour Expectation for students throughout the school year.

2. COMMUNICATION

Expectations regarding acceptable conduct are made known to all students, parents and school staff, as well as to temporary staff or visitors. The school and district Codes of Conduct and École Kilmer's Behaviour Matrix are posted on the school website. Students and parents are asked to report any unacceptable behaviour seen at school or when traveling to and from school to a responsible adult.

3. IMPLEMENTATION

Each student receives direct instruction on our school's code of conduct during the first weeks of school and continuously through the year. Teachers will directly teach what is acceptable and unacceptable behaviour as defined in the Code of Conduct and in the school-wide expectations. Specific strategies are taught to students so that they can solve problems addressing learning outcomes for social responsibility and school expectations.

- '3R's (Respect Myself, Respect Others and Respect the Environment are explicitly taught through school meetings and class discussions.
- Community Circles: students meet in class circle groups to learn a wide range of social communication skills
- Creation of Class Charters, School, and Staff Charters
- School use of the Circles, Zones of Regulation, and SNAP strategies for self-regulation

4. MONITORING AND REVIEW

Conduct is continuously monitored to ensure codes reflect current and emerging situations and are contributing to school safety. Student conduct has direct implications for every aspect of the school. We constantly monitor patterns of behaviour and assess our responses in the context of ensuring students learn how to behave in ways that are positive for the community. While issues are often dealt with at the classroom level, they are referred to Administration if they appear significant or if behaviours are repeated.

The implementation and monitoring of the Code of Conduct will be an agenda item and reviewed at the first staff meeting each year in September. Teachers will be given the onus of reviewing the Code of Conduct with their students, so that future and ongoing discussions can be informed by their assessment of student behaviour.

The Code of Conduct will also be referred to the KPAC with the suggestion that it be reviewed at a KPAC meeting.

5. ALIGNMENT

Codes of conduct are compatible between schools in the community and across elementary, middle, and secondary levels. École Kilmer Elementary School's Code of Conduct was developed following the district guidelines and ministry requirements and is aligned with other schools in our district.

6. STANDARDS

Statement of Purpose

- To establish and maintain a safe, caring and orderly environments for purposeful learning
- To clarify and publish expectations for student behaviour while at school, while going to and from school, and while attending any school function or activity at any location

2025-2026

École Kilmer Elementary Code of Conduct

Conduct Expectations

As per Section 8 of Human Rights Code of British Columbia, a person shall not discriminate against a person or class of persons regarding any accommodation, service or facility customarily available to the public because of the Indigenous identity, race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation, gender identity or expression, or age of that person or class of persons. Furthermore, as per Section 7 of the Human Rights Code of British Columbia, no student shall publish or display anything that would indicate an intention to discriminate against another, or expose them to contempt or ridicule, on the aforementioned bases.

Expected Behaviours

- Demonstrate respect for self, others and the school
- Help to make the school a safe, caring and orderly place
- Inform school staff/supervisor of incidents of bullying, harassment or intimidation
- Act in a manner that brings credit to the school

Personal Digital Devices ins Schools

- All cellular phones or similar personal communication devices are to be appropriately stored during the school day.
- Digital devices of any kind are only to be used at the discretion of your teacher when identified as appropriate for your learning environment or because of unique circumstances.
- Any use of personal digital devices at school is subject to all other expectations for conduct and use of technology, including AP 140.2 – Digital Responsibility for Students.

Unexpected Behaviours

The following behaviours are deemed unacceptable; they are broad in nature and are not intended to be all inclusive:

- Behaviour that interferes with the learning of others or creates unsafe conditions
- Behaviour that does not show respect for people or property
- Actions that involve bullying, harassment, intimidation or physical violence or retribution against a person who has reported incidents.
- Actions that are illegal such as theft or damage to property, possession, use of weapons or possession, use or distribution of illegal or restricted substances: e-cigarettes, vaporizers, marijuana and other drugs including alcohol.
- Actions that demonstrate failure to take directions from teachers, support staff and other adult leaders working with the students.
- A search by school officials of a student under their authority or a search of student property may be undertaken if the school has reasonable grounds to believe a school rule has been or will be violated, and that the evidence of that violation will be found in the location or on the person of the student being searched. Students know that their teachers and other school authorities are responsible for providing a safe learning environment and maintaining order and discipline at school. As a result, they must know that, where reasonable grounds exist, this may require searches of students, their lockers and their personal effects and the seizure of prohibited items.
- Students should also be aware that the schools may collect, use and disclose personal information about students for the purposes of investigating and addressing student misconduct, safety and maintaining order and discipline in school. Such collection and use of student information may include information that is obtained from witnesses or collected from other secondary information sources (e.g. social media). All personal information of students collected by the school will be collected in compliance with and under the authority of the Freedom of Information and Protection of Privacy Act (ss. 26(a), (b), and(c)) and the

2025-2026

School Act. Questions about the collection, use or disclosure of student personal information should be directed to the Associate Superintendent of Information and Learning Technologies Stephen Whiffin, at swhiffin@sd43.bc.ca.

Rising Expectations

As students become older and more mature, there are increasing expectations for personal responsibility and self-discipline, and increasing consequences for unacceptable behaviour.

Consequences

Consequences will be as immediate, relevant, and meaningful as possible. They will be applied in a fair and consistent manner, respecting individual right, responsibilities, age, maturity, and any special needs; they will be restorative rather than punitive in nature.

As a school, we recognize the importance in modeling respectful and responsible processes for managing conflict. Whenever possible, we try to use a restorative approach to resolve conflict and teaching pro social behaviours.

Restorative Practice

*The fundamental premise of restorative practises is that people are happier, more cooperative and productive, and more likely to make positive changes when those in authority do things with them, rather than to them or for them (**International Institute for Restorative Practices**).*

*The focus of behaviour interventions should be to recognize and repair the harm done, teach and reinforce positive behaviours and return the offender to the community stronger and more resilient than before the offense (**International Institute for Restorative Practices**).*

Every effort will be made to support students. However, if there are ongoing conduct issues after having implemented restorative interventions, more traditional discipline approached will be used, separate or in conjunction with restorative interventions. All disciplinary decision will be made with respect to the individual and context, and responses to conduct issues with taking into consideration the student's age, maturity, and past conduct.

If a problem is ongoing or more serious, the parents and school-based team will be engaged in establishing a plan to help the student develop strategies enabling them to better monitor their own behaviour.

Special considerations may apply to the imposition of consequences for a student with special needs if the student is unable to comply with this Code of Conduct due to a disability of intellectual, physical, sensory, emotional or behavioural nature.

Notification

- parents of student offender(s) – in every instance
- parents of student victim(s) – in every instance
- follow up calls and conversation with the victim- in every instance
- follow up calls and conversation with the victim's parents/guardians in every instance and an opportunity for counselling if requested/deemed necessary
- school district officials – as required by school district policy
- police and/or other agencies – as required by law
- all parents – when deemed to be important to reassure members of the school community that school officials are aware of a serious situation or incident and are taking appropriate action to address it
