## **STUDENT LED CONFERENCES**

Dear Parents,

On Thursday, February 6<sup>th</sup>, Kilmer students will be participating in Student Led Conferences. These conferences are an excellent opportunity for students to showcase their learning, to share their accomplishments with their families, and to practice their communication and leadership skills. Student led conferences are one of two informal reports shared with parents regarding student progress during the school year. Teachers and students have been preparing for the conferences for several weeks.

As parents arrive at classrooms, children will lead them through a set agenda which allows the child to highlight his or her work over the last term. In most cases, a student led conference lasts for about 20 minutes with the child in the lead. Please note that this is not the time for a parent / teacher conference. If you have questions or concerns arising from your child's student led conference, please feel free to contact the teacher to arrange for another time to discuss any issues.

[There will be early dismissal to accommodate this event.](#)

**[Students will be dismissed at 1:40 pm on Thursday, February 6<sup>th</sup>](#)**

*\*Individual teachers may have set different times for their classes due to unique circumstances. In those cases, teachers will have sent home a separate notice.*
