Our Skills for Life Summer Camp is a supportive and inclusive program designed to help children with diverse abilities build essential social and life skills in a fun and engaging environment. Through a combination of structured activities, group interaction, and individualized support, we provide students with the tools they need to gain confidence, form friendships, and navigate everyday challenges. In addition to fostering social and life skills, our program focuses on developing self-regulation skills, problem-solving abilities, and practical life skills like cooking. We aim to empower campers to manage their emotions, make thoughtful decisions, and apply problem-solving strategies in various situations.

Cooking activities offer a hands-on way to practice following directions, teamwork, and independent task management. Our goal is to create a safe, welcoming space where every child can thrive, grow, and have fun. Students are to bring their own support staff to assist them in the program, ensuring they receive the personalized support they need to succeed.
