## **E-bikes and E-scooters**

The BC government has recently updated their regulations for E-bikes and E-scooters to highlight the importance of safety. It's worth noting that E-scooters are permitted to be operated by anyone 16 years of age or older. "Light E-bikes" (max 250W) are permitted to be operated by anyone 14 years of age or older, while "Standard E-bikes" (max 500W) are permitted to be operated by anyone 16 years of age or older. There are also regulations pertaining to where E-bikes and E-scooters are permitted to be operated.

For the safety of students and staff, those old enough to ride E-bikes and E-scooters should operate them with caution on and around school district properties.

You can review these updated regulations here:
