

Action Plan for Learning

	School Name: Miller Park Community School 
	School Context Link:
	School Goal: Self-regulated Learning
	School Year: 2020-2021

Goal / Inquiry Student learning	To improve student learning through the following: <ul style="list-style-type: none"> • Focusing on improving self-regulation strategies for students in all spaces. • Continuing to develop a common language amongst all students, teachers, staff and parents about working together across Grades K-5 through our values and beliefs (Kindness, Teamwork and Respect, and Together We Are Stronger). • Helping students to properly identify their emotional Zones of Regulation (blue, green, yellow, and red), and become more independent in choosing appropriate strategies/tools to help them get back on track. • Use of Restorative Practices intentionally and more consistently in the classroom, on the playground, and at the office. • Targeted support for students with our school counsellor and youth worker through the “Taming the Worry Dragons” small group support
---	---

Rationale 1-3 reasons for choosing goal	<ul style="list-style-type: none"> • Self-regulation is a critical factor for student learning and success, specifically it can help students to be less anxious about school in general, better able to handle unexpected events, and more comfortable handling challenges. • Staff wanted to learn more about supporting their learners in self-regulation and helping student to focus better during instructional and work cycle times. • For the last three years we have worked with Social Emotional Learning and Self-Regulation. The focus had been on Literacy for the previous 10+ years (Reading for 9 years and Writing for 2 years). We will continue to use Reading Benchmarks to collect relevant data on student progress and to analyze how our efforts are making an impact for learning. • The Revised Curriculum and Students’ Self-Assessments of the core competencies (communication, thinking and personal & social responsibility) aligns well with an SEL/Self-regulation goal. The competencies are connected to the emotional state and stability of each learner.

MDI –

Planned Actions

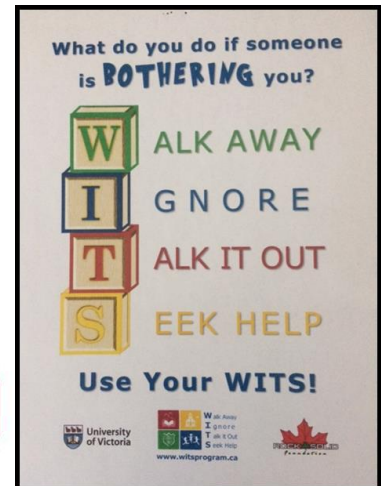

Continuing practices working well (1-3)

- What will we do differently? (1-3)
- How will we provide for staff development and collaboration?
- How will we involve parents?
- How will we involve students?
- How will we monitor progress and adjust actions?

This will be done by using the Zones of Regulation materials and Restorative Practices to develop a consistent school-wide approach for use in all classrooms.

Working Well:

- Miller Park Social Responsibility Matrix: Descriptions about Respect for ourselves, respect for others and respect for the environment in each learning space/context
- Students’ self-assessments of the core competencies each reporting term.
- Class charters and opening week activities in September focused on the Zones of Regulation and W.I.T.S.

- Levels system for inappropriate behavior as detailed in the school’s Code of Conduct.
- Addition of self-regulation furniture and materials to help create ‘zones’ for optimal learning within each classroom space.
- Increased focus on Restorative Practices to resolve conflicts through class meetings and circles. Continued use of the Peace Table school-wide: Restorative practice whereby students work through a series of steps to bring a resolution to their conflict.
- Changes to learning spaces by introducing more flexible seating options, and organization of common school supplies in clear bins and tubs so that all students can easily see and access materials and supplies.
- Implementation of a school-wide Technology policy that focuses on self-regulation and proper use of devices.

	<p>Differently:</p> <p>Staff:</p> <ul style="list-style-type: none"> • Pro-D, Staff meetings and Department Head Leader meetings structures will have a focus each month to review goal, set criteria and assess progress. • Potential for staff to be involved in Pro-D opportunities collectively. <p>Parents:</p> <p>Information and feedback will be given through the following events and communications:</p> <ul style="list-style-type: none"> • Open House • Student Led Conferences • Newsletters with a specific focus each week on self-regulation language and strategies to implement at home. • WTK event • School-wide Assemblies • Parent Advisory Committee monthly meetings <p>Students:</p> <ul style="list-style-type: none"> • More student involvement at school events and assemblies to reinforce/teach aspects of self-regulation. • We continue to add to our Self-Regulation Room which allows students to have a sensory break for shorts periods and then re-integrate into the classroom. <p>Monitor:</p> <ul style="list-style-type: none"> • Office Referrals & Technology violations • Student planners and home-school communications. • Students self-assessments of the core competencies.
