3D PRINTING

PROVIDED BY ROBOKIDS

See a 3D printer up close and personal, and have it print for you! Every student will take home a printed model of their 3D design project.

Over 5 classes, beginners will enter the world of 3D design through basic shapes. Experience how humble shapes like the square and triangle can lead to some amazing creations like: an igloo, an Easter rabbit, a hot-air balloon, or even a model of your own house.

If you are a master of basic shapes, then either cooperate or compete with other experienced designers to solve a weekly scenario using 3D design. Scenarios are based on real life problems so for a head start, start thinking about:

- The secret to keeping opened potato chips fresh
- Hacking gift-giving so that your presents will always be remembered by friends
- How to keep earbuds safe, organized, and dust-free.

Dates: January 15 – February 26

Location: Computer Lab

Number of Sessions: 5

Day of Program: Mondays

Time: 3:15 – 4:15 PM

Cost of Program: \$80.00
