Action Plan for Learning (APL or apples)

Each year, our school is required to develop an Action Plan for Learning (APL). The APL is a framework for reporting student learning and school goals that are most relevant to our school community. A committee analyzes data collected in the areas of Classroom Assessments Based on Teacher Judgment, School-Based Assessment and Provincial Data to make decisions about goals we want to achieve. The " Evidence of Change" section reports on the progress towards achievement of those goals.

THE RULER APPROACH: Building emotionally literate schools, families and communities

RULER helps students, educators, and families develop the emotional intelligence skills needed to make sound decisions, foster healthy relationships, enhance well-being, and achieve desired outcomes at school, home, and in the workplace. RULER directly aligns with the Redesigned BC Curriculum and can be connected to each of the Core Competencies.
