

**Simon Fraser University  
Programs & Events for the General Public**

**Taken from: <http://www.sfu.ca/science/programs---events-for-the-general-public.html>**

The Faculty of Science presents several free events and lectures for the public each year. Events are usually based on a first-come, first-served basis unless specified. More information on the list below can be found at the site listed above.

**SFU Cafe Scientifique-** Cafe Scientifique is a series of informal discussions with award-winning researchers from SFU's Faculty of Science who will connect research to important health-related issues of interest to the community. First one is in conjunction with our National Science Literacy Week!  
**Saturday, September 23, 2016** from 7:00-8:30pm, Boston Pizza, New Westminster, 1045 Columbia St.

**National Science Literacy Week!** Celebrated by SFU on **Saturday, September 24, 2016**  
Activities are free and suitable for all ages.

**Starry Night @ SFU** - The free Starry Nights program brings thousands of star-gazers, including children and youth, to campus to peruse the night skies and learn about astronomy using the state-of-the-art Trottier Observatory and Science Courtyard. One will be held on **Saturday, September 24, 2016** 8:00pm, in conjunction with National Science Literacy Week!

**Science Spooktacular**

Hundreds of families turn up to share wicked science activities, phantom physics and cryptic chemistry at this annual event to be held **Saturday, October 29, 2016**.

**Science Rendezvous & International Astronomy Day**

Every year, the Faculty of Science partners with this nation-wide event to celebrate science.

**Nobel Prize Lecture**

FREE, EVERYONE WELCOME.

Each year the Faculty of Science celebrates the newly-awarded Nobel Prize winners in chemistry, physics and medicine/physiology.
