

People's comments about Gene's compositions

Robin Easton, Author, Speaker and Musician:

Dear sweet soul, you brought tears to my eyes and goose bumps on my arms. I am so moved by your open heart and beautiful spirit. Your music is rich with innocence and freshness that is so often missing in the playing of highly trained musicians. . . . I cannot listen to your music without being profoundly moved.

...this brought tears to my eyes. You are so beautiful and gifted. You have more passion in your playing than most people ever know. Listening to your heart and own inner wisdom you will keep evolving and learning in your own way. I am going to share this on face book. I know my friends will be as deeply moved by it as I am. Bless you dear friend.

Phillip Wilcher, Composer:

Lovely work from you as ever Gene. Too few composers today write melodically, but you do and I love that about your work. Striking changes of harmony here Gene. Bless you - well done!

Daniel Léo Simpson, Composer:

A spontaneous piece of beauty (Moonlit Waltz) and beautifully performed!
