SATISFACTION SURVEY

The Provincial Satisfaction Survey is unique in its scope, size and usefulness to schools. It gathers information from parents, teachers and students on topics related to school environment, safety, and achievement. The information is used for planning in individual schools and provides a district and provincial perspective.

The Satisfaction Survey will be administered to students in grade 4, their parents, and all school staff. We encourage parents to participate in this survey, as the results are important in identifying and celebrating current strengths, as well as determining where the school needs to focus improvement. The surveys contain standard questions for the Province – in addition, questions from the school and/or district that focus on local conditions or issues may be included.

Grade 4 students will be doing the survey online with Mr. Wright. Parents will receive further information, including login and instructions during the month of March.

RECYCLING IN SD43

School District No.43 (Coquitlam) has joined Municipalities, public and private organizations throughout Metro Vancouver to reduce waste in local landfills.

School District No.43 (Coquitlam) is taking action and enforcing the mandate of recycling all organic waste in all District schools, buildings and locations. Bins are at the school and staff and students are beginning to prepare for the changes.

Please watch for further information about organic waste recycling.
