Dear Parents and Guardians:

RE: Professional Development Day Date change

Earlier in the year we committed to a Professional Development Day on January 22, 2016. Since that commitment was made there have been significant changes in terms of support for the implementation of the new curriculum provided by the Ministry of Education and subsequently, by our school district.

As the District Focus Day is January 29th, most of the workshops presented are now focusing on learning about planning, strategies and delivery of this new curriculum. As our Nestor team would like to take advantage of these offerings we have requested and received permission to change the date of our January Professional Development Day to January 29th, 2016 from the original date of January 22nd, 2016.

We appreciate your flexibility and support for this extraordinary circumstance. The website calendar has been updated to reflect this change.

Kind regards,

Darlene Proulx
Principal
