The Pinetree Post	Career Interest	The Pinetree Post is an independent student-run newspaper that distributes one issue every month, available in both print and digital (now only digital in accordance to COVID-19 safety concerns). We cover relevant topics with honest perception. Pinetree Post is an excellent way to network as we're constantly in collaboration with other clubs. We are made for the students, by students, looking to tell the stories of Pinetree in a way that no other organization can. Anyone can submit guest articles to thepinetreepost@gmail.com or opinions to facebook.com/thepinetreepost Fun fact: When the Pinetree Post underwent a major redesign in 2015, it kept the half-tree logo, but adapted it to a modern flair. Pinetree Environment Club	Community Service	The goal of our club is to fight climate change by hosting events and initiatives to raise awareness about the destruction of ecosystems around the Earth, take action against issues in the environment, and encourage the community to discontinue unsustainable habits. Our club will provide club members with opportunities to help our local ecosystem and make a positive difference in the community.	Sofia Cisneros, Caris Truong scisneros450@gmail.com ; caristruong388@gmail.com	Wednesday
Pinetree UNICEF Club	Non-Profit Organization Fundraiser	The UNICEF Club's goal this year is to help spread awareness on UNICEF's projects. We wish to, with the help of our club members, educate and inform the students at Pinetree (as well as the general public) on the services that the UNICEF organization is working on providing for children in need. Everything will be done safely. There will be no fundraisers, although donations may be made online directly to the UNICEF organization's Patreons/GoFundMes. The promotions that are made by any club member/volunteer for spreading awareness on these topics will also be created and posted virtually to follow all the safety guidelines. Game Creation Club	Hobbies	Do you have a passion for games? Have you wondered what it's like to release your own game for the world to see? If so, then this is the club for you. The game design business is usually separated into 4 main categories: artists, designers, programmers and sound engineers. These groups are the backbone of making a game. We'll be releasing all of the games we make onto the web; so if you've ever wanted to go into the game creation field, this club can give you valuable experience and help build your resume. Pinetree Seniors Care Club	Community Service	The Pinetree Seniors Care Club's goal this year is to help safely bring company and comfort to our local seniors. By working with nearby retirement care centers, students at Pinetree Secondary will create letters of kindness, positive affirmations or uplifting drawings for the seniors. From there, the students will send a scan of their creation to the executives. The club leaders will then look over all the artwork to ensure that they are appropriate, and will send them virtually (through email) to community retirement homes, where the art can be shown to the seniors. There will be no fundraisers at all for the club – we simply wish to (virtually!) spread some happiness to our elderly by writing letters. Pinetree Coding Club	Hobbies	Interested in coding? Come join Coding Club to learn how to code in different programming languages like Java and Python - no experience needed! We'll start from the basics and work our way up. Let's get coding!	Harim Chang, Sophie Zhao harimchang03@gmail.com, sophie14159@gmail.com	Thursday
Hot Potato Initiative	Community Service	The Hot Potato Initiative, a registered non-profit working to educate & engage young Canadians in the conversation about homelessness. We recognize that due to the unprecedented circumstances posed by COVID-19, we cannot run Hot Potato Runs (sales), however, we are aiming to provide similar opportunities for students that allow us to achieve the same educational goal. Aside from the Hot Potato Runs, we have numerous other projects such as Hot Potato Talks, which are interview series featuring different stakeholders of homelessness. Moreover, we engage the students by holding meaningful conversations about the surrounding socioeconomic inequality.
