## **TRANSLINK**

As Translink is increasingly busy, please keep the following in mind when you are taking public transit.

- Be mindful of where you are standing when the bus is coming to a stop. Moving away from the curb allows the driver to pull in safely.
- Remember that other students want to get on the bus. Pushing your way to the front of the line makes everything slower for everyone.
- With construction, the bus stop locations have changed. Check the signs or your app carefully to make sure that you're at the right bus stop.
- Other bus riders may not want to hear your conversation—keep the volume down.
- You might miss the bus, or it might be full. Another one will be along soon.
- If you see something unusual when you're on public transit, report it to a uniformed attendant, or text 87.77.77

We all need to work together to make a transit system that it safe for everyone!
