Cancel | « Previous | Get Code » 9

Step 7: Select All Languages

Step 8: Choose how you would like the language translator to be viewed on your screen

Step 9: Select Get Code

Google Translate   Google Analytics   Webmaster Tools

Google

Website Translator - Add Website

Website Info | Plugin Settings | Add Plugin

Ready to roll! Now let's talk code.

Paste this code onto your website
Copy and paste the following code snippets onto every page you want to translate
Place this meta tag before the closing </head>
10

```
<meta name="google-translate-customization" content="b45c7aaaa7d3b1fe-
62440201e07b2a63-g72e786f6fc2cb222-1c"></meta>
```

Place this snippet where you'd like to display the Website Translator plugin on your page

```
<div id="google_translate_element"></div><script type="text/javascript">
function googleTranslateElementInit() {
  new google.translate.TranslateElement({pageLanguage: 'en', layout:
google.translate.TranslateElement.InlineLayout.SIMPLE}, 'google_translate_elemen
t');
}
</script><script type="text/javascript"
src="//translate.google.com/translate_a/element.js?
cb=googleTranslateElementInit"></script>
```
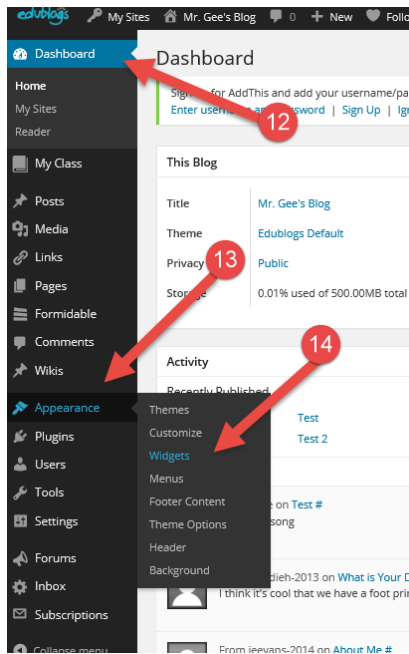

Give it a spin!
Now, unless you selected the automatic display mode option, you should see a language selector on your page.
11

🔷 Select Language | ▼

Click the selector to translate the page! By the way, you can always visit Settings to get this code again later.

Step 10: Copy the code, and paste it on a document to keep
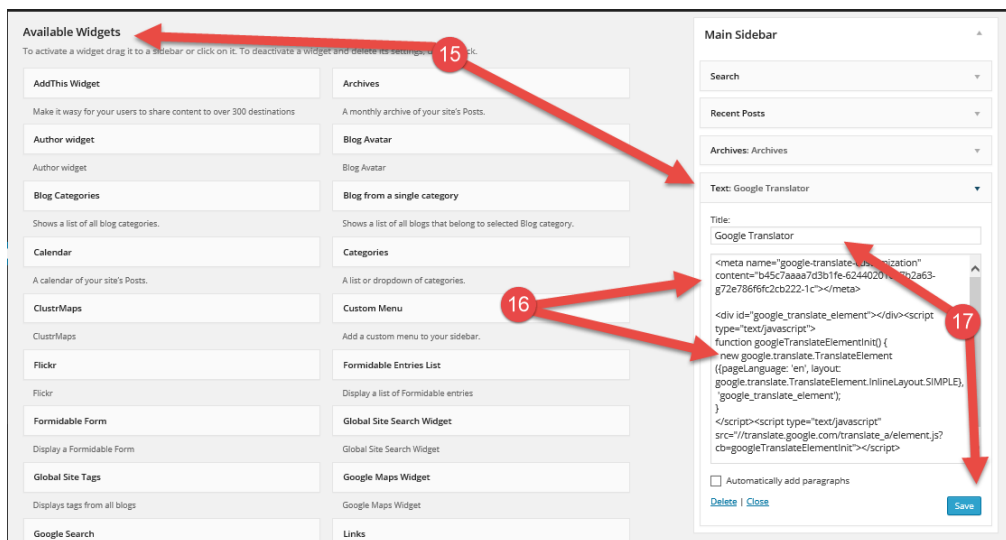

Step 11: Copy the code, and paste is on a document to keep

Step 12: Go to your Edublog Dashboard

Step 13: Select Appearance

Step 14: Select Widgets

Step 15: From the Available Widgets, select the widget titled Text, and drag it to the sidebar where you want the translator to be viewed on your blog

Step 16: Copy and Paste the HTML code from step 11 into the text area, then copy and paste the HTML code from step 12 into the text area

Step 17: Enter a title and select save

If you ever need to edit the website you have entered into the translator simply google: Google Translator Toolkit, this will bring you to a page where you can access all of the sites you have entered into the translator
