

# SHOW WHAT YOU KNOW

## Using Web & Mobile Apps

When we process our learning by showing, retelling, and expressing, it reinforces our understanding. And, we just might inform and entertain an audience while we're at it!

"You don't really understand something unless you can explain it to your grandmother."

ALBERT EINSTEIN

"If students are sharing their work with the world, they want it to be good. If they're just sharing it with [the teacher], they want it to be good enough."

RUSHTON HURLEY

Today's popular digital tools come in two flavors. Web apps frequently use Adobe Flash and do not function on iPad, and mobile apps are often made for a specific device. While you might not find the same tool as a web app and as a mobile app, you can usually find an equivalent.

### Web

These tools work inside your web browser on Windows, Mac, and Linux.

### Mobile

These tools work on Apple iPad. You might find versions for iPhone, iPod touch, and Android.

**recordmp3.org**

Click the button to start audio recording. When done, you can download the mp3 file or copy the recording URL for sharing.

**soundation.com**

Use Soundation Studio to combine voice recordings with music and sound effects. Trim, loop and stretch audio clips.

### AUDIO RECORDINGS

Record summaries, skits, mock interviews, radio shows, news segments, reflections and perhaps add music and sound effects.

**Croak.it**

Tap the Record button to record up to 30 seconds. When done, your recording is automatically uploaded to Croak.it's website. You can copy and share the URL.

**Audioboo**

Record up to 3 minutes of audio. Optionally choose an image and share the audio online. Recordings are given a URL at audioboo.fm.

**ipiccy.com**

Combine multiple images using a variety of frames. Add text, stickers, and shapes. Registration is not required.

**edu.glogster.com**

Mash up photos, videos, music and clip art to make and publish digital posters.

### COLLAGES

Construct meaning through visual images. Make art, posters, diagrams, flyers, charts, advertisements, and illustrations.

**Pic Collage**

Import images and arrange them on a canvas. Choose any image as the background and add text boxes.

**Album FX Lite**

Piece together a multiple-page scrapbook using backgrounds, images, text, animations, and clip art.

**makebeliefscomix.com**

Create your own comic strip using a diverse cast of characters and a variety of objects and scenes.

**pixton.com**

Add your own images or use Pixton's character generator and clip art to make and share comic strips.

### COMICS

Putting speech bubbles and captions on top of illustrations can tell a story, represent knowledge, and showcase creativity.

**Comic Touch Lite**

Import a single image and add speech balloons and captions.

**Strip Designer**

Make comic strips and comic books by importing images and adding balloons, stickers, and text. Save as a PDF or as a series of images.

**smore.com**

Create beautiful online flyers. Select a template and fill in the information and upload your images.

**zeen.com**

Make an online magazine by starting with a template. Add as much text and as many images as you'd like.

### POSTERS

Craft visually appealing posters, flyers, infographics, and documents.

**Phoster**

Use templates to make stylish posters that you can share and print. Includes fonts, colors, and image filters.

**Prezi**

Create zooming presentations on a large canvas. Resize, rotate, and position text and images.

**drive.google.com**

Use Slides, which is part of Google Drive. Includes what you need to pull together slide deck on your own or collaboratively.

**sliderocket.com**

Make presentation slides with a full set of design tools. Combine themes, layouts, shapes, charts, tables, photos, and audio.

### SLIDE PRESENTATIONS

Put images and text on a series of slides as a visual aid or as deck of slides to tell a story.

**Haiku Deck**

Make simple and beautiful slides. Add titles and search for accompanying images. Play on iPad or share on haikudeck.com.

**Keynote**

Design slideshows using this PowerPoint alternative, where you can import images, style text, and select animations and transitions.

**simplebooklet.com**

Create page flip brochures, flyers, and product guides you can email, post, and share across the web and mobile devices.

**zooburst.com**

Create your own pop-up books. Your books can be about any subject because you can import your own images.

### ELECTRONIC BOOKS

Make fiction and nonfiction books for others to read.

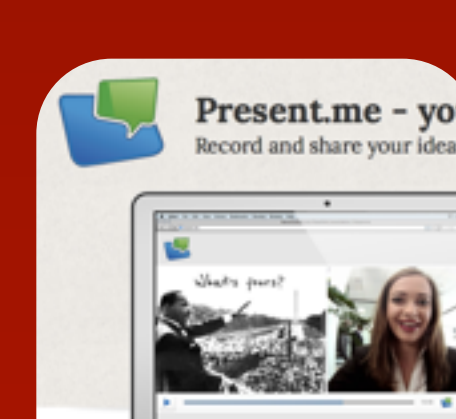

**StoryKit**

Make a book that can be published on a webpage. Each page can have images, drawings, sounds, and text.

**Book Creator**

Use drawing and text tools to make ePub formatted books. Books can be exported to your iBooks app or to PDF.

**present.me**

Import a PowerPoint, PDF, or other file. Present into your webcam while clicking through your slides.

**empressr.com**

Import a series of images, PowerPoint, or Google Presentation and add audio.

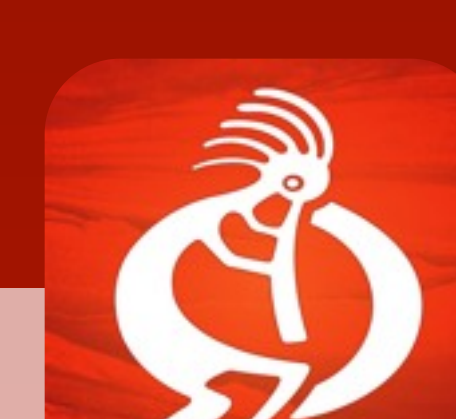

### NARRATED SLIDESHOWS

Merge images and audio to give commentary to pictures.

**VoiceThread**

Talk, type, and draw on documents, snapshots, and videos. Requires a VoiceThread account. Create 5 for free.

**Storyrobe**

Queue up a series of images and press record. Touch the screen to change images while you are recording.

**wevideo.com**

Upload media and piece it together collaboratively. Works like iMovie and MovieMaker, but it's all done in your web browser.

**youtube.com/editor**

Splice together your YouTube videos and Creative Commons videos. Add text, effects, music, and transitions.

### MOVIES

Edit video to make news stories, reenactments, demonstrations, tutorials, skits, interviews, or educational films.

**Splice**

Combine photos and videos from your Photo Library and sounds from your Music app and add transitions, titles, and effects.

**Videolicious**

Make a documentary-style film with a video introduction and cuts to other videos and photos. There's a 50 second time limit.

**goanimate.com**

Use drag and drop tools to add characters, objects, scenes, actions, music, and voice recordings.

**kerpoof.com**

Make an animated movie by selecting scenes, characters, actions, and text.

### ANIMATIONS

Make educational and entertaining videos featuring animated characters and objects.

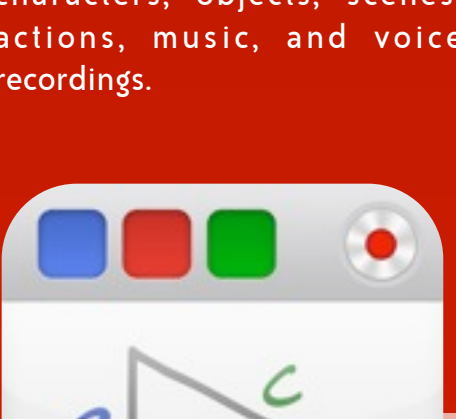

**PuppetPals HD**

Pick out your actors, objects, and backgrounds, drag them on stage, and tap record. Your movements and audio are recorded for playback and saving.

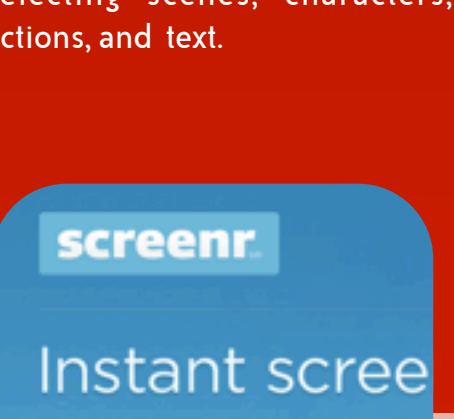

**Mad Lips**

Transform a picture into a talking animation by superimposing a video of your mouth saying something onto the picture.

**educreations.com**

Create a screencast using Education's recordable whiteboard.

**screenr.com**

Click the record button, capture your screen and voice, and share the link. Recordings are limited to 5 minutes.

### SCREENCASTS

Record your voice and everything that happens on your screen and to make demonstrations and to tell stories.

**ShowMe**

Drop images from the Photo Library onto the canvas. Tap record and draw on the whiteboard. The project uploads to showme.com.

**Explain Everything**

Annotate, animate, and narrate over images and drawings. Projects can be saved to a variety of services and your Photo Library.

With so many options for showing, retelling, and expressing, it's nice to have a choice in how we process and share our learning.

"When we choose for ourselves, we are far more committed to the outcome—by a factor of five to one."

### EACH PLATFORM HAS ITS SHORTCOMINGS

**Web apps** usually require an email, username, and password.

**Mobile apps** typically do not support multiple users.
