ADVENTURES IN FORESTRY AND ENVIRONMENTAL STUDIES

MAY 10-14, 2017 | PRINCE GEORGE, BC

We welcome grade 10, 11 and 12 students. Join us and see why 145,000 BC residence have chosen Forestry as a fulfilling career. An industry that contributes 12 billion to British Columbia's GDP. Get firsthand experience while you touring:

- PULP MILLS
- SAW MILLS
- TREE NURSERY
- AIRTANKER BASE
- REFORESTATION SITE
- BIOENERGY FACILITIES
- UNBC
- CNC
- RIVER STEWARDSHIP

Spend three days working side by side and ask questions with industry professionals in a variety of fields and develop long lasting relationships with like-minded peers from all over Western Canada.

OUR SPONSORS AND PARTNERS

Adventure in Forestry and Environmental Studies would not be a success without the very important role our sponsors and partners play. With their help, students experience three exciting days of actively observing the BC Forest Industry as it is conducted in the Central Interior of the Province.

CANFOR: PG Sawmill, JD Little Nursery, Northwood Pulp • MINISTRY OF FORESTS: Lands and Resource Operations • COLLEGE OF NEW CALEDONIA • ENVIRONMENT CANADA: Water Survey Section • BC WILDFIRE SERVICE • UNBC • COFI, Forest Education

"This program not only educates participants about forestry and environmental studies, it also demonstrates the wide range of employment opportunities available to students." - Linda Wilson, past AIF Chair

BURSARY OPPORTUNITIES

The Rotary Club of Prince George Yellowhead is proud to sponsor the annual adventures in Forestry and Environmental studies Bursary.

A student attending the Adventures in forestry environmental program who completes high school and continues onto a post-secondary education in a related field is eligible to apply for a \$1000.00 bursary.

Information regarding the bursary and application will be made available at the adventures in forestry and environmental studies event.

2016 STUDENT FEED BACK

"I don't know if you remember me but, did the natural resource camp with you at the end of last school year. I just wanted to let you know that it strongly influenced my career goals and has inspired me to want to go into forestry. To start on my way I am currently working the lift at the J.D. Little nursery that we visited"
