

Join future leaders at UBC this summer

ASAP Summer Leadership Program

Come join future leaders in STEM at the **Applied Science Advancement Program** (ASAP), organized by Geering Up in partnership with the UBC Faculty of Applied Science. Through hands-on projects, discussions, and lectures guided by top professors and graduate students, you will learn how to solve tomorrow's problems with cutting-edge STEM technologies and concepts. ASAP is open to students currently in **Grades 7 to 12** (2016-17 school year).

ASAP Overnight Program

Come live in first year residence for a week to experience what it is like living and learning at UBC. Form strong connections with your group while exploring STEM at one of the most beautiful and prestigious campuses in the world. Kickstart your university experience! ASAP Overnight is open to students currently in **Grades 9 to 12** (2016-17 school year).

Program Streams

Four distinct, week-long streams are offered between **July 4 - August 31**:

Biotechnology and Biomedical Engineering

Apply engineering and technology to biological systems.

Mechatronics

Learn how to integrate mechanical, electrical and computer engineering to design new technologies.

Civil Engineering and Environmental Urban Design

Learn how to design, construct and implement sustainable structures that respond to a need within the community.

Discover

Explore a variety of topics in biology, chemistry and physics.
