

COQUITLAM & PORT MOODY FIRE RESCUE

JUNIOR FIREFIGHTER PROGRAMS 2023-24

PROGRAM INFORMATION

School District No. 43 (Coquitlam) is partnering with both Coquitlam Fire Rescue and Port Moody Fire Rescue to offer two **different** Junior Firefighting Programs for 2024. Students can apply for both programs if they choose but, if successful at the end of the application process, **will be selected for only one of the academies**.

Firefighters must maintain a high level of fitness to perform their duties effectively and professionally as firefighting turnout gear and breathing apparatus will add approximately 23 kilograms to a firefighter's body weight. You will be expected to perform firefighting duties and skills wearing this heavy and hot lifesaving gear.

The Junior Firefighting Programs will give the applicants a true understanding of the basic physical and educational components of Fire Rescue's basic training for new recruits. The educational component will test the applicant's knowledge learned in the classroom of firefighting equipment, fire behaviour, the fire tetrahedron and the products of combustion, to name a few. The practical component of the program will test the applicant's strength, endurance and teamwork skills. Some of these are: dragging charged hose lines, carrying ladders in a group, climbing the hose tower, and cutting up cars in teams using the "Jaws of Life".

If there any personal or parental/guardian concerns that entering this program may exceed the physical limits of the applicant, it is recommended that the applicant undergo a medical examination by a doctor prior to applying for this program.

All injuries, no matter how minor, that occur during the Junior Firefighter Programs must be reported immediately so that they can be documented and attended to. Any information collected on injuries or medical conditions will remain confidential.

The academy training sites are:

- **Coquitlam Fire Rescue** (12 students) - 1300 Pinetree Way, Coquitlam
- **Port Moody Fire Recue** (6 students) - 150 Newport Drive, Port Moody

The last day of the programs is a "Family Day", where a member or two from the family of each applicant can come and watch the demonstration of the skills and knowledge learned over the course of the previous academy days. Following the demonstration, there will be a closing ceremony where applicants that have completed all their classes and assigned work will receive a certificate.

This is the **sixth year** of the **Coquitlam** Junior Firefighter Program, and **everyone is very excited in ensuring its continued success**. It is the second year for the **Port Moody** Academy, and everyone is **enthusiastic** and **ready** for the first class of students to experience this amazing learning opportunity with their Fire Rescue team.

Please bring 2 updated resumes with you to your personal interview in January.

There will be a small panel (three or four people) from Coquitlam Fire Rescue, Port Moody Fire Rescue, and Coquitlam School district interviewing you.

During your interview you may be asked about information in your:

- Letter of Intent
- Letters of Reference
- School courses and grades
- Attendance/Lates... especially if you excessive lates or absences (i.e. more than 5, ideally no unexcused)
- Key points from the “Who am I?” section

It is strongly recommended reviewing:

- Coquitlam Firefighter Recruitment site:
<https://www.coquitlam.ca/269/Firefighter-Recruitment>

ACCIDENT AND LIABILITY INSURANCE

Parents/Guardians:

As part of the Junior Firefighter Program, your son/daughter will also be enrolled in a Work Experience 12 online course that is organized and monitored by Joanna Horvath, an SD43 teacher.

Usually, Work Experience placements are made with many different employers and organizations throughout the Lower Mainland (ex: retail store, accounting firm, florist, care home). Worksites are considered either Standard or Non-Standard under the Workers' Compensation Act.

A **Standard Work Site** is a location at which a worker carries out career related tasks and responsibilities under the general supervision of a work-site employer. It also applies to a situation of self-employment. This Standard work site is covered by the Workers' Compensation Act.

A **Non-standard Work Site** is a location created by a school or school board for training students for an occupation or career, or an existing public or private training institution in which a student is placed for training purposes. **Workers' Compensation Board coverage does NOT apply on a Non-standard work site.**

Important Note:

For the purposes of this Junior Firefighter Program, this work experience worksite is considered **Non-standard**.

It is highly recommended that you review your family's medical plan coverage, mostly around long-term disability, to ensure some liability coverage for your son/daughter participating at this non-standard worksite.

Some students may already have this coverage under their Parent/Guardian or be satisfied with their present coverage.

The coverage is not part of MSP and is usually privately arranged through an employer's extended benefit package, such as Pacific Blue Cross.

One example of a 'third party' insurance plan, for those needing it, is "Old Republic Canada". The web address: **insuremykids.com**. Parents can research any additional coverage, if they choose.

Important note: do **NOT** consider purchasing any insurance plans until your son/daughter has been accepted into the academy and that it is actually happening (given potential changes in CoVid19 situation).

If you have any questions please contact Joanna Horvath, *Work Experience teacher*, at 604-312-7739.

PARENT WAIVER AND ACKNOWLEDGMENT

The City of Coquitlam and City of Port Moody (the “City”) Fire Rescue Junior Firefighter Programs (the “Program”) is a work experience program that introduces students to firefighting theory and practical skills, including fire hose drags and carries, setting up and climbing an aerial ladder/bucket, fire extinguisher training, climbing a training tower in firefighting gear, rappelling, fire pumper vehicle activities, auto extrication training (e.g., cutting cars, removing glass, vehicle stabilization) and using other firefighting equipment.

The Program is designed to provide challenges and skill-building opportunities and includes a number of activities with inherent risks that are different or greater than those normally assumed at home or school, including risks related to use of Fire Rescue grounds and equipment, slipping, tripping, falling from a height, being struck by falling objects, improper use or failure of equipment, over-exertion, exhaustion, inclement weather, impact or collision with equipment or persons and negligence or unauthorized activities of others. While the City takes reasonable safety precautions, it is not possible to eliminate all risk.

Participants are required to wear all safety gear and strictly comply with all instructions and directions provided by Fire Rescue staff and other Program facilitators. Participants must share responsibility for their own safety and that of others during the Program and are encouraged to seek clarification regarding safety or any other matter at any time.

In consideration of the City allowing the student named below (the “**Participant**”) to participate in the Program, the Participant’s parent or legal guardian (the “**Parent**”) hereby:

The Parent and the Participant are encouraged to contact Fire Rescue if they have any questions or concerns about the risks described above or any other concerns regarding participation in the Program.

If any part of this Consent and Acknowledgement of Risk is determined by any court to be illegal or unenforceable, that part will be severed, and the remaining parts will continue in full force and effect.

This Consent and Acknowledgement of Risk is governed by and will be construed in accordance with the laws of the Province of British Columbia.
