JAN 17, 2017 **IT'S TIME TO** **TALK ABOUT** **MIDDLE SCHOOL**

Starting Middle School can be both exciting and intimidating for students and parents alike. As parents of children with extra support needs, we have questions and concerns about the differences between Elementary and Middle School. We wonder how our children will cope and what kinds of supports they will receive. After many years at elementary school, this move to a new setting and a new team can feel like “going back to square one”!

This information evening is especially for parents whose children with intellectual or developmental disabilities will begin Middle School in September, 2017.

Our panel of teachers, counselors and principals will provide information and answer your questions about the Middle School model, the transition process and what parents can do to prepare their children and themselves.
