SFU's SCIENCE ALIVE is coming to Birchland!

Science Alive is a community outreach science program run by students in the Applied Sciences Department at Simon Fraser University. Instructors are trained to deliver a variety of hands on activities to school aged children. This program has been offered at a number of schools in our District and it is offered in other Districts as well. We are very pleased to welcome this Program to Birchland Elementary School and to offer it to your children in grades 2 to 5.

This Program is themed around a variety of topics. Each session combines theory and application with interactive hands-on activities, experiments, demonstrations and enquiry based discussions. All presentations will support the learning outcomes for Science. Students are able to explore science, engineering and technology in a fun and interactive manner. Join us and see just how exciting science can be!

Behaviour Policy

Please ensure that your child **wants** to attend the program that they are registered for. These programs are not designed or staffed to deal with Behaviour issues. A single child's negative behaviour can seriously impact an entire program and impact the enjoyment for all other participants. For the benefit of everyone if a child's behaviour interferes with the program, he/she will receive notice that their behaviour is unacceptable. Should a second incident occur the child will be asked to leave that session. A third incident will sideline the child for the remainder of the session and it will be recorded as one of three chances before the child is removed from the program. Parents will be contacted regarding behaviour issues and if a child is removed the remaining fees will be reimbursed.
