## MAKING THE MOST OF SECONDARY

This panel presentation includes representatives from School District 43, adult special education college programs, employment services & community & government agencies that provide supports, programs & services to youth with disabilities. The purpose of this session is to look at how students & their parents can make the best use of the high school years in order to better equip students for the next stage of life. This is a great opportunity to check in, receive important information and ask questions in a friendly, informal environment.
