

DR. CHARLES BEST SECONDARY SCHOOL SCHOOL SUPPLIES 2017-2018

There is not a formal list of supplies as it is dependent on the classes that the students have each semester. The teachers will let the students know if there is anything specific that they need for their courses. Generally, students just need a few binders, pens and pencils and loose leaf paper for the binders. Slowly but surely we are starting to move to a 'bring your own device' model where students can bring their own laptop or tablet to school, but this is something that teachers may address specifically moving forward and isn't something that families need to purchase right away.
