

Caribou Contests: Math Competition Supervision Instructions

From Caribou Contests:

In response to School Closures:

Writing contests at home

If your school is closed during the upcoming April & May Caribou Contests, students may be allowed to write at home under normal contest conditions (**no calculator, no outside help, no communicating about contest content before announcements of results**). We have tools to detect unfair participation, so please respect these rules. You will need to sign in with your name and access code. If you do not know your code, your Caribou Contact (teacher) can find it in their account.

“From your School Caribou Contact:

- **Citadel Contest Date & Time:** **Thursday April 9th at 11:00am**. Note: Alternate times can be arranged, please contact your core teacher or Mrs. Hughes.
- Please contact your core teacher or Mrs. Hughes (pamhughes@sd43.bc.ca) if you lost your code.
- If you would like to join the Caribou Contest, there are still some codes available. Please contact Mrs. Hughes (pamhughes@sd43.bc.ca).
- Remember your code for checking your results Thursday April 9 (late pm) or Friday (morning).
- The next (& last) Contest date will be on either Wednesday May 6th or Thursday May 7th.
- Put your code in a safe place!”

Free Resources

To help keep students motivated to learn math at home, we have made all of the 2017-2019 contests and their solutions free to access in [Previous Tests](#), even without an access code, until the end of the 2019-2020 Caribou Cup.

For schools who have purchased School Wide Contest Access (*Citadel has a School Wide Access*), we are offering a free upgrade to the All-Inclusive School Wide Pass. (*Coming soon!*)

Caribou is not just a math contest, but an online learning platform accessible anywhere, anytime, and well-suited to studying at home. A reminder of our free services :

- entirely free Grade 2 contest level and October contest for all levels
- 250+ video solutions on the Caribou Contests channel on [YouTube](#) and [Daily Motion](#)
- interactive games and puzzles on the [Games Page](#) (limit of 5 mins/day without an access code)

Give these a try and share them with any friends, family, students and educators looking for online math enrichment resources.

Stay safe!

Your Caribou Team

About Caribou

The Caribou Mathematics Competition is a world wide online contest that is held six times throughout the school year. Each of these days, six contests are offered, one for each of the grade levels 2, 3/4, 5/6, 7/8, 9/10 and 11/12 and each one in English, French, Persian and Mandarin.

The Caribou Cup is the series of all Caribou Contests in one school year. Each student's ranking in the Caribou Cup is determined by their performance in their best 5 of 6 contests through the school year.

All support materials (written solutions, current year and previous years contests as online practise tests, online math and logic games, online mini courses) are also available without contest participation. Many of them are free.
